

THE MODERN KITCHEN SELECTOR

The A to Z of perfect planning

With this catalogue Häfele, assists you with the planning of your kitchen. It is designed to provide you with inspiration as well as an overview of the important considerations to be taken in to account while planning a kitchen.

Introduction

Dear Readers,

It is my pleasure to introduce to you the 16th edition of our highly popular Modern Kitchen Selector. This Catalogue can be used as a tool for understanding the different solutions that Häfele India provides to the growing demand for modern, multi-functional and trendy kitchen fittings. A kitchen is the soul of a home, where the family meets and socializes. A well planned, organized and easy to operate kitchen spreads positive vibes as well as enhances the overall atmosphere of the place. Häfele has always been the pioneer in providing you solutions that help you in having the most convenient, accessible and aesthetic looking kitchen. Our motto has always been “style with functionality” and to reiterate the point we have added some very practical solutions to our already colossal collection of kitchen products.

Häfele is totally dedicated in its endeavour to bring to the Indian consumer the best that is available in the world market, at rates which are approachable and provide a strong value proposition. This has paid off in the form of large growth that we have seen in the last few of years, and makes us strive for more innovations to suit diverse needs and simplify myriad complexities to furnish the growing appetite of our esteemed customers.

Continuous improvement is about now and about the future. Quality is a moving target. We believe the content of this Catalogue is as much about the future as it is about the present. Everything in here affects you in some way, because everything we do is aimed at meeting your needs, facilitating your functioning, achieving that sophisticated style. What is good enough today will certainly not be good enough tomorrow and we are working non-stop to bring to you the solutions that would cater to all your needs and make the kitchen your leisure-zone rather than the work/sweat zone. We hope that you enjoy the glimpse of our range that is available with us ex-stock, and eagerly await your comments and recommendations regarding them. Please tell us what you think about it!

Jürgen Wolf
Managing Director
(Häfele South Asia)

Hafele

Reassuring Expertise

"For over 9 decades, we've been helping people make more of their homes.

Established in Germany, and now operating worldwide, we specialise in the fittings, hardware and systems that improve the way your home works. So when you choose our products as part of your new or reformed home, you know you're getting the benefit of extensive knowledge and decades of experience.

And we're still a family business, owned and managed by family members who really care about the products and service we provide. You can rely on our commitment

to the highest standards of quality and reliability, founded on a long tradition of German engineering where attention to detail is second nature.

All our home improvement ideas are built to last – day in, day out – we want you to get the very best from every corner of your home, for many years to come."

Häfele Worldwide

With its origin in 1923 in a small town named 'Nagold' from the Swabian region of Germany that nurses a passion for hardware technology, it is no surprise that Häfele has lived up to its roots through a successful presence in the architectural and furniture hardware industry for over 9 decades now. Today, Häfele's worldwide penetration includes 38 subsidiaries across Europe, America, Asia, Australia and New Zealand. With these subsidiaries and numerous other sales organisations, Häfele operates in over 150 countries. The Häfele headquarters, 4 manufacturing units and 10 sales offices are located within Germany; while 1 manufacturing unit is located at Budapest, Hungary. The company also owns one of the largest and most sophisticated warehouses in its home country. The Häfele worldwide workforce is empowered by a base of over 8100 employees.

The group services over 150,000 customers across the globe through its extensive range of hardware products and a comprehensive logistics system. In addition to this, Häfele also provides consultative services to its customers, educating and advising them about buying the correct hardware as per their requirements. With this level of market penetration and ability to handle worldwide demand, it comes as no surprise that the company is an authority in the segment of home interior solutions; what is pleasantly surprising, though, is that in spite of its size, Häfele still remains a family owned and run business with a unique, friendly and value-centric work culture which is strongly followed among all its subsidiaries.

Hafele India

 Head Office & Regional Offices

 Hafele Design Showrooms

Häfele India is a wholly-owned subsidiary of the Häfele Global network and has been operating in India since 2003 under the leadership of Mr. Jürgen Wolf (Managing Director). The ability of the company to understand the diverse Indian market has made it an authority in the field of architectural hardware, furniture and kitchen fittings and accessories. The company also has a strong presence in synergized product categories namely Home Appliances, Furniture Lighting, Sanitary and Surfaces catering to the focused demand from these industries.

The subsidiary has a strong nation-wide presence with offices in Mumbai, Pune, Ahmedabad, Bangalore, Chennai, Hyderabad, Delhi, Kolkata and Cochin. It has full-scale operations in Sri Lanka and Bangladesh with Regional offices and Design Showrooms in both the countries; and has also spread its operations to other regions of South Asia including Nepal, Bhutan and Maldives.

Häfele's design showrooms are hubs of international home interior trends and cutting edge designs presented in a world-class environment, where customers can see home solutions in their inherent applications. These showrooms function as a one-stop-shop for all home interior and improvement needs - from providing in-depth technical advice to kitchen and wardrobe designing services through a team of experts stationed at the showroom.

Häfele India services its customers with a base of over 1300 employees, a well-networked Franchise base of over 130 shops along with over 1000 dealers situated across South Asia. The subsidiary has a sophisticated Logistics centre in Mumbai along with distribution centres in Delhi, Bangalore, Kolkata and Colombo respectively.

WHICH KITCHEN ZONES SHOULD YOU PLAN?

Kitchen Layouts

L-Shape

Island Kitchen

G-Shape

by Blum

CONSUMABLES

NON
CONSUMABLES

CLEANING

CONSUMABLES

This kitchen zone contains typical consumer goods such as canned goods, rice and pasta as well as refrigerated and frozen foodstuffs. In simple terms most grocery shopping is stored in this zone.

NON-CONSUMABLES

This kitchen zone is used to store items such as dishes, glasses and cutlery. It is also an ideal location for "odd and ends" storage (i.e. stationery, pens, household paperwork, etc)

CLEANING

This zone contains space for waste collection and storage as well as household cleaners and cleaning utensils. It is also the location of the sink and the dishwasher.

U-Shaped Kitchen

L-Shape Kitchen

Straight Kitchen

There are two basic situations regarding the kitchen work zones & their optimisation, to be used on the one hand. These are possible for most straight kitchen designs that are not planning a hobset.

PREPARING

COOKING

PREPARING

This zone is the main work area in the kitchen. Most kitchen preparation work takes place here. Items such as; kitchen utensils, knives, small electrical appliances, chopping boards, spices and mixing bowls are all located in the preparation zone.

COOKING

This kitchen zone includes the hob, oven, steamer, microwave, extractor hood, pots, pans, cooking utensils and baking trays.

Häfele, the world renowned kitchen specialist offers hardware fittings that help you design your kitchen the way you dreamt of it. We provide you with options to pick and choose hardware that maximizes the functionality and at the same time is in line with the aesthetics of your kitchen.

Functionality is the soul of every kitchen. Without it, the kitchen is nothing more than an assembly of good looking cabinets. Our constant endeavor is to make your kitchen more functional, ergonomically and aesthetically more appealing, so that every minute of your presence in the kitchen is a joyful experience.

The Kitchen Selector gives you an exact idea about our products and helps you decide the products that would be best suited for your kitchen's design from a wide variety of options available, making it look more elegant.

To make your entire experience all the more enriching, Häfele offers a 360° service. We guide you right from the initial stage, i.e., in selecting the different products for your kitchen (using the Kitchen Selector), to designing your kitchen, and after selection once you have placed the order with our dealer, seeing to it that the products are delivered at the earliest.

Our service doesn't stop here, we have now introduced installation services under the "Meister Service" initiative where our technicians can install these products for you flawlessly. Last but not the least, we also provide after sales services to ensure that you have a smooth and hassle free kitchen at your perusal. Our 360° approach enables you to have your dream kitchen exactly the way you want it, and with the least bit of effort required from your side.

DRAWERS

Blum LEGRABOX Drawer Systems

LEGRABOX offers an impressively slim drawer profile thickness of only 12.8 mm which is straight on the inside and the outside to maximize the usable interior space of the drawer. It is available in four luxurious finishes: Anti-fingerprint Stainless Steel, Terra Black, Orion Grey Matt and Silk White Matt, all of which give it a distinct look and feel.

The LEGRABOX pure programme consists of three drawer side heights for standard drawers and two drawer side heights for inner pull-outs. It combines design and function for well-balanced solutions creating elegance in motion.

The look of LEGRABOX free is characterised by large design elements that offer the freedom to individualise the design of pull-outs.

Blum LEGRABOX free

- LEGRABOX free combines elegance and functionality to deliver a top notch drawer system.
- This drawer system is available in 4 colours
- The inner drawer design can be changed based on customer specification
- 4 dimensional adjustment is possible
- Drawer Height = C

TIP-ON BLUMOTION for TANDEMBOX intivo

The new motion technology combines the advantages of TIP-ON mechanical opening support system with the reliable BLUMOTION dampening for a silent and effortless closing. This advanced technology provides inspiration with its undeniable ease of use.

With TIP-ON BLUMOTION, it is possible to refine any design concept with well thought-out functionality – particularly if the design of the furniture avoids the use of handles completely.

- Dynamic load bearing capacities of 30 kg and 65 kg
- Feather-light glide
- Small minimum front gap of 2.5 mm
- Extensive trigger range
- Four-dimensional front adjustment

Small front gap with extensive trigger range

Reliable pull-open and push-close function

Easy 4-dimensional adjustment

1 TANDEMBOX plus under sink unit - 30 kgs	554.81.675	554.81.275	554.81.175

Blum TANDEMBOX plus accessories

1 Side stabilisation

Side stabilisation

This optional part is for additional stabilisation for extra wide high fronted pull-outs. Recommendation for cabinets with widths between 900mm and 1200mm.

3 Handle

Handle

Inner pull-outs - especially those in difficult installation situations - can be opened silently and effortlessly using the new handle.

1 Double Gallery Rail

2 Front stabilisation

Front stabilisation

This optional part reinforces the connection between the drawer side and the front and helps stabilising wide and high fronts.

4 Handle & Latch

Handle and latch

When the handle latch function is activated on the inner drawer, this drawer will be automatically opened with the high fronted pull-out. When you want to access the lower pull-out, this function can be easily released with just the press of a finger.

2 Double Walled BOXSIDE

Blum TANDEM concealed runners with integrated BLUMOTION for wooden drawers

- Brings perfect motion to wooden drawers and pull-outs
- Allows the rich finish of wood to be preserved in applications
- Program incorporates both single and full extension options
- Ensures smooth running action even with heavily-loaded drawers and pull-outs
- Easy to remove and clean due to its operational locking device

- 4 Optional front adjustment bracket (Used for 4-sided wooden drawers for both TIP-ON & BLUMOTION TANDEM runners)

Note: The front adjustment bracket has to be ordered separately.

Blum TIP-ON for TANDEM

With TIP-ON for TANDEM, the new opening feature for drawer fronts without pulling, you get drawers that open with just a light touch. This is a great addition to the smooth running action of TANDEM runners.

This also provides reliable opening even for wide fronts. Wide drawers and pull-outs can be opened with just a light touch - no matter where you press on the handle-less front. The new synchronisation for TIP-ON for TANDEM, the mechanical opening support system from Blum, makes it all possible.

Note: The accessories for the TIP-ON feature to be ordered separately

Blum MOVENTO concealed runners for wooden drawers

© Copyright by Blum

MOVENTO with TIP-ON BLUMOTION

MOVENTO runner systems - The evolution of motion. With MOVENTO, we can now have tool-free side, height, tilt and also depth adjustment for the drawer front. Depth adjustment is optional for furniture with inset fronts. An exact gap design can be achieved quickly, easily and tool-free.

MOVENTO is available in a 40 kg or 60 kg load bearing class.

The runner system is characterised by high stability and excellent sag values.

Blum SERVO DRIVE for drawers

Drawers and high fronted pull-outs open automatically using an electrical drive with just a light touch on a handle-less front or a light pull of the handle. This creates more freedom of motion as well as high opening comfort for any living area.

SERVO-DRIVE can be used in combination with TANDEM runner, MOVENTO runner, TANDEMBOX & LEGRABOX pull-out systems. In addition, BLUMOTION supports this solution with silent and effortless closing action providing high quality of motion in the kitchen.

Blum SERVO-DRIVE UNO for drawer mounted bin

© Copyright by Blum

SERVO-DRIVE UNO is a handy solution which makes the waste disposal & separation straight forward in kitchens. The drawer can be opened with just a light touch of your hip, knee or feet.

Features:

- Significant improvement to the comfort level
- Improved leaning protection prevents accidental opening
- Sensitive collision detection
- Integrated protection against water ensures the highest degree of safety
- Low power consumption
- Also ideal for retrofitting

Blum SERVO-DRIVE flex

- Each door in the combination fridge/freezer is fitted with a separate SERVO-DRIVE flex unit and can therefore be opened individually.
- Large and heavy doors, e.g. freezer doors, open with two synchronised drive units reliably and at the same time.
- For refrigerators, an optional wireless switch can be used to expand the trigger range on the front. Whichever part of the front is pressed, opening the door is always convenient.
- If SERVO-DRIVE flex is used with integrated dishwashers, the drive unit is mounted in the centre of the installation recess.
- **Lean protection**
SERVO-DRIVE flex differentiates between short pressing actions and longer leaning actions. The lean protection prevents accidental triggering of the opening support system.
- **Adaptive system**
SERVO-DRIVE flex can be adapted to suit the door properties. This means the access gap is always the same size and the door can be opened reliably.
- **Automatic Self Closing System**
If the door is not fully opened after triggering the opening support system, the magnetic rod pulls the front shut again. This ensures that the door does not remain open accidentally.
- **Trigger safety**
After opening, the rod retracts into the drive unit. The user's working area remains free because the opening function is not triggered again until pressure is applied to the front.

Blum Narrow Cabinet Solutions

A practical solution for small storage spaces. Now even the smallest spaces in the kitchen can be used. With this solution for narrow cabinets, Blum creates additional storage space thanks to diagonally offset runners – without compromising on stability or quality of motion.

Diverse implementation options

The solution for narrow cabinets is compatible with Tandembox intivo, antaro, plus and LEGRABOX programme lines. For a maximum cabinet width of 200 mm.

Blum's narrow cabinet solution can also be realised with TANDEM and MOVENTO runners.

1 TANDEMBOX intivo narrow cabinet solution

2 TANDEMBOX antaro narrow cabinet solution

3 TANDEMBOX plus narrow cabinet solution

VS Sub Basket

- The Vegetable Storage Basket, with a front pull-out, is suitable for cabinet widths of 450 mm and 600 mm.
- With a Silver Grey finish, these baskets are mounted on Blum's Full Extension TANDEM Runners of a nominal length of 500 mm.
- You have the option of choosing between a front pull-out basket or inner basket pull-out or a combination of both.
- The specially developed RAL 9006 (Silver Grey) finish is anti-corrosive and prevents the metal parts from rusting under harsh conditions.
- A ventilation grill has to be provided on the front of the drawer for free air circulation in the cabinet where vegetables are stored.

Häfele's Wire Baskets & Accessories

Wire Baskets are a classic drawer option, a perpetual favourite and the preferred life-long kitchen partner to countless Indian households. Häfele's Wire Baskets Range mirrors its philosophy of functionality, sophistication and exceptional technology. As a result, it is a glamorous spin-off to the traditional counterparts available in the market.

Häfele's New Wire Basket Range works on Blum Tandem Runners with built-in BLUMOTION for seamless drawer transitions. The entire range has been carved out of Stainless Steel 304 with a Nickel-Chrome Plating, promising

extreme durability (Lifetime Warranty). It also guarantees easy assembly and provides 3D adjustments for the fronts. These wire baskets are developed for cabinet widths of 450, 600 and 900 mm and come in four height options of 80, 100, 150 and 200 mm with a standard depth of 500 mm.

This Range of Wire Baskets is complemented by compatible wall-unit racks, under-sink basket and organisers for Thalys, Plates, Cup and Saucer and Jars/Bottles.

Wire Basket Drawers

Stainless Steel Grade 304:

Häfele's Range of Wire Baskets has been carved out of Stainless Steel 304 with a Nickel-Chrome Plating (18 – 21 microns), promising extreme durability and corrosion resistance.

Soft Closing: The baskets are compatible with the Blum TANDEM Runners with built-in BLUMOTION for seamless drawer transitions. The runners ensure silent and effortless closing independent of the force used thereby guaranteeing a smooth running action and a low sag value.

Pre-drilling Possibilities:

The Wire Basket Range is crafted to adapt to Blum TANDEM runners making predrilling of carcasses for modular kitchens extremely feasible. Even the fascia fronts can be predrilled as per the dimensions provided for the front fixing brackets of different wire basket heights.

3 Dimensional Adjustments: The Drawer fronts can be adjusted conveniently. They can be moved to the left and right, top and bottom and can be tilted slightly in order to avoid uneven gaps between panels.

Lifetime Warranty:

Häfele provides a Lifetime Warranty against corrosion / rusting on its Range of Wire Baskets.

Kitchen Drawer Mats

Each **Skido Line Drawer Mat** comes with a depth of 1440 mm and a width of 1800 mm. Considering the average external depth of a drawer is 200 mm, the mat can be loosely divided into 3 parts, each of 480 mm (indicated by the grey dashed lines).

Flexibly, the mat can be cut into various combinations depending upon different drawer widths. In the example given below, you can see how one sheet of the **Skido Line Drawer Mat** is used for 11 drawers (no. of drawers depends on the drawer widths).

Similarly the **Skido Drawer Mats** come with a depth of 800 mm and a width of 1440 mm. Considering the average external depth of a drawer is 200 mm, the mat can be used for one of those drawers. For eg.

Aqua Under Sink / wall Mats

Aqua under sink mats are used in sink cabinets to prevent the bottom of the carcass from getting spoiled by water. The sink mats are made of plastic and have a specially designed spherical surface which can hold up to 6 litres of liquid per m². The mat provides protection against water and other leaking liquids in the sink cabinet. It stops water from damaging the drawer bottoms (wet kitchen issue).

1 Aqua Under Sink Mat - Aluminium Metallic

2 Aqua Under Sink Mat - White

3 Grey with stainless steel foil

4/5 Aqua Wall Unit Mat

Scoop II's Cutlery Tray for TANDEMBOX

- Scoop II's flexible slot-in divider system allows you to arrange the compartments according to your own personal requirements in no time at all.
- You can expand the basic models of the cutlery insert by adding to them from our extensive range of accessories.
- The variable tray inserts not only bring colour into play - here even bits and pieces find their own special place.
- The edge profile (stainless steel finish) protects you from the sharp and rough edge of the cutlery tray and gives a neat and clean look to the entire unit.

The USP of this tray is the adjustable inner divider or tray, which helps to customize the content as per your requirements.

Ergo-Fit Wooden High-Fronted Organisers

Ergo-Fit Box Inserts

Häfele's Ergo-fit Box Frames / Inserts collection allows you a free hand at storing and experimenting with the way you organise your plates/ pots & pans etc. The box frames come with an adjustable divider that helps you use a customised space for your plates while the pegs on the pegboard can be moved as per requirement. They are made of bamboo and compact laminate which is ideal since the materials are of a hard wearing and durable quality. Moreover they are naturally water- repellent which helps you keep your kitchen dry and fresh always.

Ergo-Fit Plastic High-Fronted Organisers for Tandembox & Legrabox

Ergo-Fit CUISIOFlex

A good organization system convinces by its simplicity and versatility. The items that have to be organized and stored do constantly vary in daily use. Due to its telescopically adjustable frame the Ergo-fit cuisioFLEX can perfectly adapt to the requirements of any kitchen. Also as a solitary, free-standing frame on the worktop, it cuts a fine figure.

FLAP & LID STAYS LIFT UP SYSTEMS

Blum AVENTOS HF LIFT SYSTEM for wooden and wide aluminium profile fronts

© Copyright by Blum

The AVENTOS HF bi-fold lift system is the ideal solution for high and mid wall units. Thanks to the two-part front, even high cabinets can be accommodated. With AVENTOS HF, there is no limit to the variety of planning and design options available. Whether your customers want wooden fronts, narrow or wide aluminium frames, combinations of different materials or even fronts of different heights, you will always be able to meet their individual requirements.

The bi-fold lift system opens easily, remains in any desired position and closes silently and effortlessly thanks to BLUMOTION.

AVENTOS HF is suitable for cabinet heights from 480 to 1040mm and cabinet widths up to 1800mm.

AVENTOS HF benefits:

- Numerous design options
- Soft opening and closing with BLUMOTION
- Variable and smooth stop
- Lift up with just one finger
- Easy assembly and removal
- Fast and precise adjustment
- SERVO-DRIVE for AVENTOS, the electrical motion support system for wall cabinets available

Blum AVENTOS HS LIFT SYSTEM

With the lift system fitting for AVENTOS HS, even large, one-part fronts appear to defy gravity by swinging up effortlessly. There is still enough space over the cabinet for a host of design options, such as beautiful details in the form of cornice or crown mouldings.

As you would expect, this product is just as easy to assemble as the others and the process is almost entirely tool-free.

The up & over lift system opens easily, remains in any desired position and closes silently and effortlessly thanks to BLUMOTION.

AVENTOS HS is suitable for cabinet heights from 350 to 800mm and cabinet widths up to 1800 mm.

AVENTOS HF benefits:

- Silent and effortless closing, thanks to BLUMOTION
- Easy to open
- Stops at any opening position
- Provides excellent access to the cabinet interior
- Small programme, huge application variety
- Easy assembly and adjustment
- Stability, even with wide fronts
- Excellent durability
- Free positioning of handles
- No protruding parts
- SERVO-DRIVE for AVENTOS, the electrical motion support system for wall cabinets available
- The cross stabiliser can now be assembled tool free

Note : AVENTOS HS with Grey & White cover caps

Blum AVENTOS HL LIFT SYSTEM

This product is a brilliant combination of design and function. As its name suggests, the AVENTOS HL “lift up” lifts right up and out of the user’s way so that everything is always within easy reach. As a result, even special installations are possible. For example, you can integrate electrical appliances into tall cabinets.

AVENTOS HL is easy to open and can be stopped at any desired position. It closes silently and effortlessly thanks to BLUMOTION.

AVENTOS HL is suitable for cabinet heights from 300 to 600mm and cabinet widths up to 1800mm.

AVENTOS HL benefits:

- Silent and effortless closing, thanks to BLUMOTION
- Easy to open
- Stops at any opening position
- Provides excellent access to the cabinet interior
- Suitable for cabinets with cabinets above, as well as cornice and crown moulding
- Small programme, huge application variety
- Easy assembly and adjustment
- Stability, even with wide fronts
- Excellent durability
- No protruding parts
- SERVO-DRIVE for AVENTOS, the electrical motion support system for wall cabinets available
- The cross stabiliser can now be assembled tool free

Blum AVENTOS HK top LIFT SYSTEM

With the new AVENTOS HK top it's possible to achieve easy access and better workflow in the kitchen. With just a touch to the front it moves up and out of the way and stops in any position, and can be left open while the kitchen is being used. This makes the cabinet contents accessible at all times. Even large and heavy fronts open with ultimate ease.

The new AVENTOS HK top being small in size and top in functionality merges beautifully with cabinet interiors, thanks to its clear-cut design.

Blum AVENTOS HK top LIFT SYSTEM

AVENTOS HK top benefits:

- The Compact Size of AVENTOS HK top makes it ideal for it to blend in discreetly into tall units and wall cabinets
- Comes with an integrated safety mechanism which stops the lever arm from folding out unintentionally while installation
- Integrated opening angle stop with infinitely variable setting makes it convenient to set the opening angle exactly as required
- Integrated positioning system of the symmetrical lift mechanisms makes installation and adjustment a quick fix. No pre-drilling is required
- Lift mechanism can be adjusted precisely to the weight of the front and the cabinet front stops in any desired position
- Its minimalistic cover caps are available in three different colour variants: light grey, dark grey and white.
- You can implement wooden fronts and wide and narrow aluminium frames, or even use thin fronts of just 8mm to 14mm in thickness
- BLUMOTION gives soft, effortless closing and handle-less fronts open with ease with the SERVO-DRIVE electrical system and TIP-ON mechanical system.

Blum AVENTOS HK-S

AVENTOS HK-S is the perfect choice for small lift systems in tall cabinets, e.g. above refrigerators. Thanks to its neat and tidy dimensions, the fitting can be perfectly integrated into small pieces of furniture, making the best possible use of the storage space.

The variable stop also holds the small stay lift in any desired position.

AVENTOS HK-S is suitable for cabinet heights up to max. 600 mm.

AVENTOS HK-S benefits:

- Specifically for small stay lifts
- Silent and effortless closing, thanks to BLUMOTION
- Easy to open
- Stops at any opening position
- Provides excellent access to the cabinet interior
- Suitable for wall cabinets with cornice or crown moulding
- Small programme, huge application variety
- Easy assembly and adjustment
- Stability, even with wide fronts
- Excellent durability
- No protruding parts

Note : Sets for AVENTOS HK-S for wooden fronts now includes the CLIP-TOP straight steel mounting plate.

Blum AVENTOS HK-XS
for wooden & wide aluminium profile fronts

AVENTOS HK-XS is the compact fitting for small stay lifts in high and wall cabinets. Thanks to the narrow style, AVENTOS HK-XS offers a high level of design freedom. AVENTOS HK-XS proves itself with the familiar AVENTOS quality of motion.

Stay lifts open and close with seemingly weightless movement. They close silently and effortlessly in combination with CLIP top BLUMOTION hinges.

High quality of motion

The variable stop allows the lift system to remain in any desired position and always within easy reach.

Numerous possibilities

Whether thick wooden fronts with wide or narrow aluminium frames, the fixing positions always remain the same. This allows different materials and front thicknesses to be easily integrated.

Proven Blum quality

The lift mechanism with a robust spring package is the core element of the compact fitting. The AVENTOS HK-XS proves itself in this way with high stability and durability. High quality is ensured for the lifetime of the furniture.

Note : The TIP-ON drilling and adapter have to be purchased separately. For details please refer to the price list.

Blum SERVO DRIVE for AVENTOS

With the SERVO-DRIVE for AVENTOS electrical motion support system, the use of lift systems is turned into a special experience. SERVO-DRIVE for AVENTOS only has a few components. These are easy to attach and can be precisely adjusted. In just a few simple steps, SERVO-DRIVE can be assembled and put in to operation.

Benefits of SERVO-DRIVE AVENTOS:

- Easy opening with a light touch on the front.
- Easy closing by pressing a switch.
- Integrated collision protection.
- Integrated BLUMOTION provides silent and effort less closing action.
- Perfect manual performance even during power cuts.

SERVO DRIVE for AVENTOS - Individual Components
After the installation of the lift mechanism and making the necessary adjustment, the SERVO-DRIVE components are attached to the lift mechanism and cabinet.

1. Lift Mechanism

- SERVO-DRIVE-compatible lift mechanism with elongated hole for tool-free attachment to the drive unit

2. Drive unit

- For assembly to the left lift mechanism
- Tool-free clip-on
- The same drive unit for HF, HS and HL AVENTOS lift mechanisms
- Different drive unit for Aventos HK top
- Several practical setting options, e.g. synchronisation and collision avoidance
- One per cabinet

3. Cover cap

- For covering the lift mechanism and drive unit and cabling
- Extendable to an internal depth of 350 mm to cover the distribution cable

4. Switch & Switch connector

- Attaches to both cabinet sides
- Wireless connection to the drive unit
- Frequency 2.4 Ghz
- Certified for use worldwide
- Two per cabinet

5. Distance bumper

- Existing SERVO-DRIVE bumpers ensure the required trigger path of 2 mm
- HF needs 6 bumpers per cabinet
- HL & HS need 4 bumpers per cabinet

6a. Distribution cable

- With proven cabling components such as the SERVODRIVE distribution cable
- For easy, practically tool-free cabling

6b. Connecting node

6c. Cable end protectors

7. Transformer for power supply

- Proven SERVO-DRIVE transformer can be shared with others AVENTOS, TANDEM or TANDEMBOX, Servo Drive Cabinets

8. Transformer unit housing

- For secure fixing
- Enables necessary air circulation

9. Blum 3-pin flex

You must use a flex with a regular plug for the respective country depending on the installation location.

Additional Components

Special arm for HS + HL (Left)

Rods for HS + HL are shorter than normal

Note : For further information regarding article nos. please refer to the Blum pricelist.

Kraby Lift Up

New design Opening System. Highest quality: each article individually checked and marked.

- Available in 244 mm & 355 mm lengths
- Wide range of N strengths, to suit any door dimension and weight
- Automatic Opening: Allows the door to open to the fullest
- Friction Opening: Allow door to be stopped in any required position.
- Open angle adjustment carried out by hand through the rotary knob, for nearby doors alignment
- Adjustment of the piston base plate within the "U" slot of the side bracket to change door opening and closing
- Quick and easy installation, no need to tension the strength
- Directly installed on solid or wider aluminium frame doors with wide range of special adapters to suit small aluminium door profiles
- All the parts (stay excluded) are in zinc alloy nickel plated and plastic
- In accordance with Italian Regulation UNI 8607/05 Level 5

1 Kraby 244 mm Lift Up

50 N, 120 N on demand  = 10 sets

ORDERING INFORMATION

Product Description	Article No.
Friction Version	
1 Kraby 244 mm Lift up for Upward opening (Set including 1 piston in 60 N)	372.00.702
2 Kraby 244 mm Lift up for Upward opening (Set including 1 piston in 90 N)	372.00.703
Automatic Version	
3 Kraby 355 mm Lift up for upward opening (Set including 1 piston in 120 N)	372.00.707

Each set includes both door and side brackets, fixing screws for both solid and wider aluminium door and instruction sheet.

Kraby Lift Up
 With Standard Sprung Hinges
 Opening With Handle

Recommended pre-drilled holes Ø 3 mm.

The dimensions of the above drilling plan refer to carcasses which use standard sprung hinges and mounting plates 0 mm. Please note that min and max opening angle shown data is purely indicative.

It varies with respect to the hinge brand and adjustment carried out.

The chart refers to chipboard or MDF 18 mm doors and aluminium frame doors with glass 4 mm thick. These are experimental results to be checked by the customer.

Kraby Drop Down

With Kimana Hinges
Opening with handle and magnet K Lock

For pistons quantity to be specified according to door size, refer to the related Kraby drop down chart.

	L	L1	L1	L2	L3	$\alpha^\circ \text{ min}$
		X=18 Y= 18	X=19 Y= 19			$\alpha^\circ \text{ max}$
Kraby 244 mm	244	197	195	60	245 min	82° min
						90° max

OPEN ANGLE ADJUSTMENT:

Kraby provides 10 mm opening angle adjustment through the rotary knob. When you combine Kraby with Kimana hinges, it's strongly recommended to carry out the adjustment to get an opening angle 90° max. Overcrossing 90° door opening angle will negatively effect the Kimana hinges.

VERY IMPORTANT:

For the case cabinet "X" 18 mm thick and door "Y" 18 mm thick:

- It is required to carry out the 2 mm vertical adjustment on the Kimana hinges.
- For more details refer to product: Kimana on page no. 148
- For Kimana hinges at least 2 Kraby lid stays are required for any door width.

Kraby Drop Down

With Kimana Hinges
Automatic opening door with Tip-On

For pistons quantity to be specified according to door size, refer to the related Kraby drop down chart.

	L	L1 X=18 Y=18	L1 X=19 Y=19	L2	L3	α° max
						α° min
Kraby 244 mm	244	197	195	60	245 min	82° max 90° min

OPEN ANGLE ADJUSTMENT:

Kraby provides 10 mm opening angle adjustment through the rotary knob. While combining Kraby with Kimana hinges, it's strongly recommended to carry out the adjustment to get an opening angle 90° max. Overcrossing 90° door opening angle will negatively effect the Kimana hinges.

VERY IMPORTANT:

For the case cabinet "X" 18 mm thick and door "Y" 18 mm thick:

- It is required to carry out the 2 mm vertical adjustment on the Kimana hinges.
- For more details refer to product: Kimana on page no. 148
- For different cabinet and door thickness, please contact the office.
- For Kimana hinges at least 2 Kraby lid stays are required for any door width.

K12 Lift Up Automatic

- Thanks to the reduced size and minimal design, the K12 System provides a new concept of elegance in all details
- Wide range of 'N' strengths, to suit any door dimension and weight
- It is an easy-to-install solution that makes additional screws unnecessary, improving the aesthetic and reducing assembling time
- It operates through click-in door and side supports, sensibly reducing the risk of unsafe or improper installation.
- K12 System ensures a smooth and continuous movement of the door up to its maximum opening
- All parts (stay excluded) are in zinc alloy, nickel plated, steel and engineering plastic
- In accordance with Italian Regulation UNI 8607/05 Level 5

Link

- The freshly designed drop-down opening system.
- Unhanded mechanism for cabinet sides, the only one on the market that guarantees both a soft opening and a smooth closing movement of the door
- Installation is carried out through very simple drilling operations that don't require mills or grooves
- A complete range suits all the doors weights and dimensions
- Suitable for very shallow cabinets with a minimum depth of 200 mm
- Very simple installation, once the mechanism is fixed on the side, the metal wire end is pulled out and the small sphere inserted on to the narrow slot of the door bracket. The sphere catches onto the bayonet cavity and is permanently secured in position with the provided cover cap.
- Open angle adjustment carried out by using a S3 mm allen wrench, for nearby doors alignment
- The zinc alloy nickel plated mechanism cover, as well as the door bracket, can be supplied painted on request
- All the parts are in steel, zinc alloy and engineering plastic

Blum MODUL Hinges 100°

MODUL furniture hinge is Blum's practical and economical hinge system, which provides the right solution for many different applications. The system's combined slide-on and screw-on feature has proven itself over the years.

MODUL is a hinge system with a classic design and problem-free function - for the lifetime of the furniture. A pull-out stop is integrated into the depth adjustment. When fixing screws are loosened, the door will not fall out. Assembly is simple and easy with a quick slide-on motion.

- All metal hinge, nickel plated
- 100° opening angle
- With closing mechanism (spring)
- Slide on hinge arm
- 3-dimensional adjustment (with relevant mounting plate)

Blum TIP-ON For Doors

Handle-less fronts open at a single touch with the TIP-ON mechanical opening system by Blum. To close, simply press shut. TIP-ON is combined with the tried and tested unsprung CLIP top hinge to deliver top quality motion for doors. TIP-ON can also be used for AVENTOS stay lifts.

Tool-free door gap adjustment

The adjustment feature (+4/-1 mm) has been incorporated into the TIP-ON unit so even TIP-ON for drilling has integrated gap adjustment. To adjust gap, turn the ejector pin. The click-stop positions allow you to easily find the right setting.

Extended adapter plate programme

Both the short and long version of TIP-ON can be combined with a wide array of adapter plates, ensuring that you can maintain a slim design. Opt for the rectangular and straight-cut plate for a sleek and discreet look.

Harmonious integration

TIP-ON can be beautifully harmonised with cabinet interiors. The fitting comes in three colours, silk white, platinum grey and terra black, giving you great freedom of design. It blends in harmoniously with furniture interiors.

Variant in Platinum Grey

BLUMOTION for Cabinet Doors

BLUMOTION redefines the term quality of motion. The system is quick and easy to install and once fitted, creates a perfect and soft closing motion.

The BLUMOTION adjusts itself automatically to every closing speed of the door due to its adaptive technology hence ensuring soft closing.

Kimana

Kimana is the new hinge to open and close drop-down doors. Provided with a unique and exclusive movement, it allows to open doors even when the bottom lies upon another panel.

- The small dimensions (Ø 26 mm boring for both the door and the bottom) and minimalistic and elegant design contribute to make Kimana not only a functional hinge, but also a product unique in its genre.
- It helps in attaining zero protrusion surface in drop down doors.
- Kimana can be easily adjusted through the screws which are hidden underneath the cover.
- The fixing screws are perpendicular, thus making Kimana perfectly placed in position and suitable for aluminium profiles.
- Various door and bottom thickness-combinations can be solutioned as Kimana allows the ideal movement and alignment of the door.
- Zinc alloy and steel.

THIN FRONTS

Blum Expando T for thin front applications

Minimalistic furniture is what the customers currently seek out with the rising trend of implementing open living spaces in home interiors. Häfele offers for the very first time, a single fixing system from Blum which can enable wall cabinets, doors and pull-outs to have extremely thin fronts – Expando T. The fronts can be as thin as 8 mm and can be made up of any material, such as Dekton Surfaces by Häfele, chipboard, HPL or ceramics. This latest innovation provides the customers with the ability to implement their own design ideas and stand out even more with bespoke solutions using fittings from the new range.

- The Expando T Range of fittings by Blum can be used for three different applications: cabinet doors, pull-outs and lift systems.
- Special Front Fixing Brackets equipped with the Expando T technology are compatible with Blum's LEGRABOX pure and free drawer system components.
- AVENTOS HK, HS and HL lift-up systems with thin fronts can be installed with Front Fixing Brackets pre-drilled with Expando T dowels. The fixing positions of the front fixing brackets remain unchanged.
- All the three applications – Overlay Application, Dual Application and Inset Application, can be achieved with Expando T Hinges.

CORNER UNITS

QANTO

Optimize your space with maximum storage 

Requirements regarding kitchens have changed enormously in recent years. Exacting design standards are now every bit as important as outstanding functionality. It is precisely due to these customers' requirements that Hafele's new plug and play corner solution – Qanto hits the mark.

This new pre-assembled corner solution comes with two versatile trays that can be extracted and retracted vertically by a linear drive, at a press of a button. Just one press on the integrated switch is all it takes for the Qanto trays to rise up. Reaching stored items in the kitchen has never been as easy.

The top tray that seals the gap when fully retracted can be fitted with a wooden board or can accommodate a "little urban garden" for fresh herbs. The tray below it offers further organisational space and storage for electrical appliances, perhaps or for wine and spices. The trays are crafted from high quality, easy to clean ABS with a polished crystal glass finish and are completely illuminated by LED light fixtures integrated beneath the top tray.

Product Specifications

- Number of Trays mounted: Two
- Integrated LED Light
- Colour temperature of LED light: Warm White
- Operation: Linear drive lifting mechanism
- Maximum load bearing capacity for upper tray: 10Kg
- Maximum load bearing capacity for bottom tray: 15Kg
- Stroke distance: 500mm
- Time taken for Qanto corner solution to completely move out: 15 secs

Blum SPACE CORNER units with SYNCHROMOTION or rigid fronts

© Copyright by Blum

The SPACE CORNER with SYNCHROMOTION is the ideal cabinet solution with excellent ergonomics and comfort. It allows a uniform design for the entire kitchen and is truly the star of the show. The SPACE CORNER with SYNCHROMOTION is a corner solution by Blum that comes with the same advantages as the TANDEMBOX:

- Unsurpassed running action using the TANDEM runner principle
- Silent and effortless closing thanks to BLUMOTION
- Full extension for a good view and direct access
- Excellent durability
- Simple assembly, easy setup
- Available both with Synchronomotion & rigid fronts

Load capacity 65 kg per drawer.

VS COR Fold

VS COR Fold, is the most optimized version among the classic corner cabinets. Due to its user-friendly movement, the Wari corner is easily accessible when opened. Thanks to its fronts with integrated 3D adjustment and central height alignment, the VS COR Fold can be fitted perfectly. By opening the cabinet, the front baskets swing sideward automatically enabling free access to the rear baskets. The newly integrated damping guarantees a quiet and smooth closing of the pull-outs.

VS COR Fold, technical details:

- Variants for corner cabinets with min. door widths of 450 mm
- Easy assembly of fronts with central height alignment
- Height adjustable storage elements
- Available basket variants: Premea Grey, Artline Chrome, Premea Chrome and Planero Lava Grey
- Intergrated soft closing mechanism
- Adjustable opening angle
- Installation depth: Min. 485 mm
- Installation height: Min. 530 mm
- System payload capacity: 35 kg
- Payload capacity: 8 kg front basket (max.)
9.5 kg rear basket (max.)

VS CORNERSTONE® Swing 

VS CORNERSTONE® Swing | Rail

THE CORNER IN THE CENTRE.

The CORNERSTONE® Swing carousel moves the entire content in front of the unit, thereby unlocking completely new design perspectives. The shelves swivel out to a comfortable distance away from the cabinet; everything is within easy reach. Each shelf can be attached at the required height, and the shelves disappear back inside the unit when the door is closed.

Details

- Cabinet width: 900 mm
- Door width: 450 mm
- L-movement of the shelves allows free access to neighbouring cabinets
- Unhanded
- Easy assembly - only support tube needs to be mounted
- Optional door attachment, modular design
- Soft-close damping
- Storage version: Rail

Benefits

1. Lower tray automatically slides out when cupboard is opened
2. Optimal access with everything within reach
3. Lower trays automatically slide back in when cupboard is closed
4. Customisable height adjustment
5. Up to 18 kg per tray
6. Maximised storage space & optimal access

Eco Pro(Arc Powerslide

The Functional Tray System

Timeless design, highest processing quality

The interior of a kitchen should not be left to chance. pro(arc, a classic among carousel trays, is characterized by timeless design and proven product quality. Combined with the newly developed PowerSlide fitting, for asymmetric kitchen corner cabinets, it forms a harmonic duo. Due to its ergonomic shape and easy access to the goods stored on it, this carousel tray becomes a sought-after element in every kitchen.

Pro(Arc half trays

- One-piece moulded, seamless, and easy to clean
- Textured interior surface guarantees stability for the stored items
- Invisible underside ribbing provides for a high torsional stiffness and solidity

Features

- Easy to install and remove for cleaning and maintenance of cabinet
- Closed sides ensure no spilling of content from tray to cabinet
- Trays made up of plastic have no effect of humidity
- The trays slide straight out like a drawer, ensuring that the access to adjacent cabinets is not affected
- Loading capacity up to 20 kgs per tray
- For interior cabinet depths from 490 mm
- Available for door width minimum 450 mm

1 right-handed

2 left-handed

High End Pro(Arc Carousel Tray

L and U shaped kitchens are popular and characteristic of modern kitchen design. With its pro(arc tray system Hafele offers individual equipment and comfortable access in every kitchen corner – whether symmetric or asymmetric. The tray system offers various differentiation possibilities as to colouring, edge and surface design. An optionally available non-slip foil prevents the stored items from slipping.

Features

- Optimum utilization of the storage space in every kitchen corner
- Comfortable access to the stored items thanks to extractable or revolving trays
- Timeless design
- Seamless surfaces ensure maximum hygiene
- Surfaces loadable up to 25 kg thanks to solid underside ribbing
- Slightly convex-structured surfaces avoid wear and tear
- For all established cabinet heights
- Wide fitting range available for different corner situations

VS TAL Larder

Every item in your pull-out pantry is easily accessible with full view thanks to a modern European design.

- Stabilizing of the front by front strips and 3D front adjustments.
- Height-adjustable basket assembly, using functional clip for firm grip and low - noise.
- System payload capacity: 80 kg.
- Full pull-out with damping.
- The specially developed silver grey finish is anti corrosive and prevents the metal parts from rusting under harsh conditions.
- Installation depth: 500 mm
- Installation height: 1900-2140 mm

New improvements -

- Available basket variants: Premea Grey, Premea Chrome, Artline Chrome & Planero Lava Grey
- Improved operation due to new roller bearing, automatic closing and enhanced profile geometry
- Easyfit: Click system for assembling the frame on the lower and upper rails. Synchronic end caps up and down guarantee stability.

HSA POWER MOVE

Electric motor support for super easy opening: HSA power move

A typical situation in kitchens every day: No free hand to open the cabinet?

That is no problem anymore because a gentle pushing at the front triggers the opening process. Silently and smoothly the door opens also because of an integrated pull-out damping. Frame and fronts are made of the same high quality double powder-coated surface by a high-grade appearance.

Details

- Easy installation at the existing VS Tal Larder & VS Tal Larder Spin
- Intelligent load control for load independent opening
- Opening and closing is triggered by gently pulling or pushing

VS TAL Gate

Slightly different from the VS Tal Gate Pro – but boasting of the same advantages – the VS Tal Gate storage unit sets new standards in comfort and design. Its efficient opening mechanism allows the storage baskets to automatically slide out once the cabinet door is opened; providing for maximum storage space along with easy access.

- Comes with an integrated damping system that ensures soft and silent closing
- Comes with an advanced opening mechanism that automatically slides out the baskets on opening the cabinet, making way for optimum reach.
- 3-Dimensional front adjustment facility allows for perfect symmetry and the convenience of adding or removing the baskets from the cabinet frame as per your storage needs.

VS TAL Gate N

The practical storage cabinet pull-out with a flowing opening movement uses narrow cabinets for optimal storage space. With a single grip it provides an insight into the entire contents of the cabinet. The elegant tall cabinet solution with a door opening of 160° offers individual, ideal adjustment to the cabinet contents by height adjustable shelves. Storage containers and packaging find a suitable place here. They are easily visible and thus ready to hand. With only one pull the total inventories are placed in front of the cabinet - the optimal storage solution.

ROLLER SHUTTERS

Metallic Line & Easy Line Roller Shutter

Hafele brings to you the latest in modern kitchen designing - **Roller Shutter System** that's easy to install and a very convenient solution to store your kitchen appliances. These shutters are aesthetically more appealing because the gaps between the slats become smaller in closed state, making your kitchen look more attractive.

They provide optimum functionality with a high quality mechanism that ensures a smooth motion. This stylish system requires a flat bottom profile to be fitted in and is ready to be installed in the finished furniture cabinet, These are available in PVC shutter options.

Features:

- Easy to Install cassette
- Light weight supporting material covered with an aluminum foil on ABS plastic
- Metallic Line available in Aluminum Silver finish
- Easy Line available in Silver finish
- Available in width 600 & 900 mm with height 1350 mm

The set includes following parts

- 1 1 x Cassette
- 2 2 x Pelmet adapter
- 3 1 x Pelmet
- 4 2 x Vertical tracks (End cap pre-installed)
- 5 14 x Ø3 x 14 mm
6 x Ø4 x 20 mm
2 x Ø4 x 25 mm
- 6 1 x Installation Guide

WASTE BINS

BO-BIN Free Standing

Hafele's BO Touch Bin is a stylish bin designed to match your kitchen's décor. Its unique soft –touch opening and closing mechanism makes it easy to operate just at the touch of your hand.

It fits perfectly against a wall space and thanks to adjustable non-skid legs which allows you to adjust the height of the bin so that you don't have to bend yourself for disposing things.

The 11+23 Litre Bo-Bins are available in 3 colour options – Matt Black, Mineral Golden Beach, and Mineral Windsor Red. Each bin includes 2 removable inner buckets and comes with 10 year guarantee.

Ease of Use:

- 'Soft-Touch' opening and closing system – opens silently with the lightest touch
- Space efficient – it fits closely to the wall or conveniently in a corner
- Sparkling mineral finish, beautiful design
- Easy waste disposal without spilling – large opening
- Perfect height – better for your back and cleaning underneath is easy
- Ideal for large chores – lid stays open
- Easy to assemble – click on legs
- Adjustable legs with non- slip base – protects the floor and keeps the bin steady
- Easy to clean – removable plastic inner bucket
- 2 removable inner buckets – ideal for waste separation at home

Sort & Go Waste Bin Set

- Type: Built-in Waste Bin
- Total available capacity: 24 Litres / 32 Litres
- Variant: 2 Bins (2 × 12 Litres) and 2 Bins (2 × 16 Litres)
- Material: High grade plastic
- Colour: Mint and Grey
- Set fits easily into almost any cabinet without any load falling onto the door hinges due to the self-supporting mounting frame
- Wastebins come out of the cabinet when opened, providing complete accessibility
- Compact and space-saving design
- Sturdy handle and convenient grip on the base makes cleaning and emptying the bins easier
- Stay-Open Lid feature keeps the lid in the open position
- 10 year guarantee

Please Note: While the Sort and Go built-in set is available in a pair, you can also choose to order Sort & Go stand-alone bins. The stand-alone bins are available in an option of 6, 12 and 16 Litres. The 6-litre bin with stay-open lid is perfect for disposal of organic waste right on the kitchen counter while the 12 and 16-litre bins can be used for bottles, cans, packaging or anything else you want sorted. These bins can also be easily mounted on the wall. All bins have their own easy-fix wall mount (enclosed) and are easy to take off and hang back again.

Detergent Rack & Waste Bin Holder

Hafele's new pull-out and storage systems add convenience and functionality to your kitchens. The new detergent storage systems from Hafele fit snugly into your under-sink cabinets and prove to be an ideal solution for storing detergents and other cleaning agents.

Bottom Mounted Detergent Pull-out:

This Detergent Pull-out is fixed on the base of the under-sink cabinet and comes with an integrated dampened self-closing technology. The mild steel wire baskets are chrome-plated and can carry weight loads up to 30 kgs. The frame and rails are grey-powder coated and perfectly complement the baskets in finish and elegance.

Specifications:

- Ideal for Cabinet width of 400 mm (minimum cabinet width: 300 mm)
- Load Carrying Capacity: 30 kgs
- Finish: Wire Basket: Chrome plated
Frame: Grey-powder coated

Side Mounted Detergent Pull-out:

An alternate option to choose is the side-mounted detergent storage baskets. These baskets can be fixed either on the left or right vertical of the under-sink cabinet with the help of fixing brackets. The mild steel wire baskets are chrome-plated and can carry weight loads up to 30 kgs.

You can also choose to mount this system on runners and convert the application into a pull-out system (runners included).

Specifications:

- Ideal for Cabinet Width of 300 mm
- Load Carrying Capacity: 30 kgs
- Finish: Chrome plated

ALUMINIUM PROFILES

■ 2. Stack Modular Shelving

■ 1. Gola Profile

PROFIN RANGE of Aluminium Profiles

Gone are the days when kitchens had dedicated rooms, which were only used for daily chores like cooking and washing. With the on-going migration in to urban centres the concept of micro- living as a trend is now gaining importance among city dwellers. Separating walls disappear, living spaces merge. These spaces flow in to each other and therefore integrating family and living space with kitchens remains a very popular design option especially in upcoming cities.

An open kitchen layout comes with multiple advantages. It transforms your kitchen in to the pulsating hub of your home enabling easy conversations between your guests and you as you cook and prepare dishes. It also adds a sense of volume to your kitchen. With this layout the kitchen and its

cabinetry need to not only look immaculate but should also carry an individualistic appeal which blurs the lines of distinction between your living spaces. Hafele presents Profin – a new comprehensive range of state-of-the-art Aluminium Profiles that helps you achieve all this and much more. The range consists of 4 different categories of profiles – Gola profiles, Stack Modular Shelving, Rail Door Profiles and Strike Shelving System. These categories exploit an individual's sense of sophistication by proposing exciting design potentials and flawless in integration. These profiles are manufactured using advanced technology with meticulous precision that augments user- friendliness and ensures utmost ease of installation.

■ 3. Rail Door Profiles

■ Strike Shelving System

Finishes:

The Profin Range of Aluminium Profiles and their accessories, across categories, are available in five contemporary finishes – Silver, Graphite, Gold Rose Gold and Dark Bronze. Whether you opt for a dark kitchen or follow the recent trend of adapting metallic hues, our versatile range of profiles blends in perfectly with all color schemes. When used in contrast, they stand out like jeweled embellishments that radiates across the kitchen.

Description	Article No.
Profin - Rear Brackets for Side and Intermediate Snap-on Vertical Gola Profile	126.37.967

Unit- Pair

Profin - Stack Modular Shelving

For Decorative Open Shelving System

A new design concept of open shelving / cabinet systems is emerging. More and more enclosed storage areas in the kitchen seem to be fading into this new design concept. The open spaces are increasingly being used as platforms to showcase kitchenware, curated statement pieces of art or accessories. Häfele presents its Profin Range of Stack Modular Shelving Profiles that shapes your entire furniture aesthetics while silently delivering strength, stability and function to the units. These profiles and their accessories enable construction of open shelves with glass or wood and emanate elegance with their sleek and faultless built and finish.

Profin - Stack Modular Shelving System: Technical Information

DRILLING DETAILS

Drilling for Lateral & Universal Profile

For Vertical Profile
By Drawings

By Template

K : 8.7 mm with an end cap at the top
K : 9.7 mm without an end cap at the top

Step 2: Mark the holes, remove the template, drill the profile.

MOUNTING & CONSTRUCTION DETAILS

For Freestanding Application

We recommend the use of levelers for a freestanding application. In this case, to install the leveler, thread a M10 hole with a 30 mm depth into the lower part of the vertical profile.

CALCULATIONS

For Glass / Wooden Shelf

Shelf Depth : Structure Depth – 42mm
Shelf Width : Structure Width – 42mm

Note: The Stack Profiles give you the freedom to design the structure as per your requirement, with no depth, height or width restrictions. It is therefore not possible for us to ascertain the maximum weight carrying capacity. This needs to be determined by the fabricator depending on the dimensions of the structure. These Profiles are not meant for heavy shelving.

For Wall Mounting Application

Method 1

Drill holes of $\varnothing 4.5$ mm on the vertical profile in the position demonstrated in the drawing. The type of hole to be drilled depends on the fixing screw - Type A or Type B (details on the next page).

- Mark the height on the wall from the floor, where you want to mount the structure
- Mark the fixing axis and the hole pitch
- Drill holes into the wall

DRILLING DETAILS

Type A – Countersunk Hole

Type B – Double Diameter Hole

- In Type A, the countersunk screw secures the structure to the wall and flushes in line with the profile
- The screw head will be visible
- No adjustments are possible

- In Type B, a through hole of diameter 4.5 mm is drilled into the profile. Another hole of diameter 8 mm with a depth of 6.5 mm is drilled into the front part of the back vertical profile
- The dome-head screw passes through the bigger hole into the diameter 4.5 mm hole and secures the structure to the wall
- The screw head will not be visible (if a cover cap is used to conceal the diameter 8 mm hole)
- Adjustment of 1 mm will be possible

Method 2

- Thread the Vertical Profile from the top to a height of 40 mm
- Cut an oval hole as per the dimensions provided in the diagram

- Drill holes in the wall using a diameter 6 mm drill bit to a minimum depth of 40 mm
- Insert the dowels (not included in the offering) in the holes drilled
- Fix the curved hooks (not included in the offering) into the dowel

- Bring the assembled structure close to the wall and engage it with the curved hooks
- Once the structure is engaged with the hooks, adjust it to the desired height (can be adjusted to ± 5 mm) and insert the grub screws (not included in the offering) along the threaded rear vertical profiles from the upper side via a hexagonal wrench to tighten the grip and hold the hooks firmly in place

- Once hooked firmly, secure the structure to the wall with a normal screw through the hole (Type A or B) made in the universal profile

Profin - Rail Door Profiles

Decorative Cabinet Doors

Overhead cabinets and tall units are a must in any kitchen, especially in an open kitchen. These systems optimally utilize spaces available within kitchens and can effectively store bulk quantities of food (non-refrigerated) and other kitchen items in an organized way. To impart a similar grace to these systems as your handle-less furniture and open shelving units, Häfele brings to you its Profin Range of Rail Door Profiles. These profiles meander naturally forming innate grooves for the handles and border the glass to perfection thereby crafting timeless designs that never run out of fashion.

Unit: Piece

Note: Use a T15 Standard Torx Screwdriver with this screw

ORDERING INFORMATION

Description	Article No.
1 Profin - 90° Connecting Screw, (Req.: 8 Pcs Per Door), Finish: Zinc Plated	563.97.991
2 Profin - 90° Connecting Screw, (Req.: 8 Pcs Per Door), Finish: Darkened	563.97.992

Unit: Piece

INSTALLATION

For 90° Connection

1. Cut the thick door profile to desired length
Length of the thick profile : Door length – 10mm
2. Insert a 4 mm glass panel into the profile
3. Using the 90° connection screws, fix the thin door profile to the thick door profile
4. Fix the handle

For 45° Connection

1. Mitre the thick door profiles and cut them to the desired length
2. Insert the 45° connector and using the screws build the frame on three sides
3. Slide in a 4 mm glass panel into the profile frame
4. Enclose the glass by adding in the profile on the fourth side and fixing it in place with the connector and screws
5. Fix the handle

GLASS SIZE CALCULATION

For 90° Connection

- A1 : A-13
- B1 : B-102

For 45° Connection

- A1 : A-102
- B1 : B-102

Profin - Strike Shelving System

Decorative Shelves

What's on the inside is as important as what lies on the outside. Häfele introduces its Profin Range of Strike Aluminium Profiles for shelves inside cabinets and tall units. These profiles are a brilliant way to complete the look of your interiors and add ambience, functionality and style to your furniture. The front profile, designed with modularity in concept, includes a groove to include LED strip lights which help illuminate the insides of the cabinet with indicative and directional lighting. These lights can be combined with drivers and sensors so that every time the shutter opens, the lights inside switches on.

Silver

Graphite

Gold

Rose Gold

Dark Bronze

COMPONENTS

Note: The Rack Inserts placed in lateral profiles interlock with the shelf supports and allow a quick and easy assembly regardless to the position of the shelf supports on the cabinet.

KIT 1

KIT 1: You should order KIT 1 when you use the Front Open Profile together with the Rear Closed Profile. The KIT 1 consists of:

- D. Rack Inserts (4)
- E. Rear Connectors (2)
- F. Front Connectors (2)

KIT 2

KIT 2: You should order KIT 2 when you use the Front Open Profile in the front as well as at the back (instead of a Rear Closed Profile). The KIT 2 consists of:

- D. Rack Inserts (4)
- F. Front Connectors (4)

APPLICATION

1 Strike shelf with Front Open Profiles in the front and at the back. For this application, KIT 2 needs to be ordered

2 Strike shelf with Front Open Profile in the front and Rear Closed Profile at the back. For this application, KIT 1 needs to be ordered

Note: We recommend using the Front Open Profile with the Rear Closed Profile for a clean aesthetic look.

Profin - Strike Shelving System

Profin - Front Open Profile

For glass thickness: 4mm

Application

- With or without LED strip lights (LED Strip Lights to be ordered separately)
- Can be used in the front as well as at the back

2 KIT 2, Finish: Grey, Strike Connector Set for Rear Open Profile	126.36.215

Unit: Kit

Profin - Shelf Support Kit

Profin - Shelf Support Kit

ORDERING INFORMATION

Description	Article No.
1 Profin - Shelf Support Kit, Finish: Nickel Plated	282.43.750

WEIGHT CARRYING CAPACITY DETAILS

Note:

- The weight carrying capacity is for reference purposes only and is limited to a shelf depth of 500 mm only
- The weight capacity includes the weight of the hardware as well as the weight of the shelf

Calculations

For cutting the Strike profiles

- Front Open Profile = Internal Cabinet Width (L_m) - 2 mm
- Closed Rear Profile = Internal Cabinet Width (L_m) - 34 mm
- Lateral Profile = Internal Cabinet Depth (P_m) - 26 mm

For glass dimensions

- Glass Width = Total Width of Shelf (L_s) - 2 mm
- Glass Depth = Total Depth of Shelf (P_s) - 13 mm

LED Strip Lights Configuration

Note: Please refer to the Häfele Loox Lighting Catalogue for choosing the appropriate LED Strip Lights, Drivers, Sensors, Transformers etc.

Narrow Aluminium Profiles for Kitchen Shutters

Hafele introduces the new range of narrow aluminum profiles for kitchens. The profiles are available with four contemporary finishes of silver anodized, stainless steel hairline, silver polished and champagne brushed. The profiles come in length of 3 meters, which can be cut to size as per the requirement. It can be installed with 4 mm glass using the transparent plastic sleeve. For rigidity and long life, the profiles are connected with steel corner and install and enhances the aesthetics of kitchen.

1 Narrow Aluminium Frame Profile
Glass Thickness: 4 mm
Length: 3000mm

2 Narrow Aluminium Frame Profile with Handle
Glass Thickness: 4 mm

Wide Aluminium Profiles for Kitchen Shutters

With the changing trend from wooden shutters to aluminum profile shutters, here is the new range of Hafele wide aluminum profiles. These profiles are available in four trendy finishes of silver anodized, stainless steel hairline, silver polished and champagne brushed. The profiles come in length of 3 meters, which can be cut to size as per the requirement. The profiles can be installed with 4 mm glass using the transparent plastic sleeve. For rigidity and long life, the profiles are connected with steel corner connectors. These profiles are easy to clean and install.

Lip Profile for Shutters

Häfele's Lip profile to cabinet doors offers a modern, sleek look in any application. The Lip profile offers an exciting design potential with a range of Aluminium profiles and handles that we offer to suit one's individual taste. These profiles are easy to mount and can be assembled easily without much effort. They are used for wood thickness of 18 mm. Adding of the lip profile to your cabinet doors can create a 3 dimensional appearance when opened. The smoothness of the Lip profile is obtained due to the high quality of anodizing. A perfect ornament for kitchen shutters.

Aluminium Grip Profile Handles

In today's modern kitchens and common areas, profile handles, commonly known as 'Gola Profile' are very popular and enable endless creations. Hafele's range of profile handles provide a streamlined, handle-less look to your kitchen and are made up of high-quality aluminium. The profiles, available in 2.5m length, can be easily cut to size as per requirement and can be attached by Stainless Steel connector brackets to the cabinet sides. Hafele's Profile handles come in different finishes, viz. Silver Anodized, White & Black.

Wine Glass Holder

Wine-glass holders are:

- **Sturdy and Stylish:** high grade steel with a chrome finish provides reliable quality and elegant style
- **Easy to access:** can be easily mounted under the kitchen cabinets with glass stems hung downward from parallel slots; glasses can easily slide out of the broad opening in the front
- **Non-corrosive:** high grade steel and chrome finish prevent the holders from corrosion and can therefore sustain the humidity within wet kitchens
- **High in utility:** comes in two sizes (8 glasses and 16 glasses) that can be mounted depending on the cabinet space available and storage requirement

1 Quad Wine Glass Holder (4 slots)

2 Quad Wine Glass Holder (2 slots)

Wall Hanging Bracket

Wall hanging brackets are fixed to hang cabinets to the wall. These hanging brackets feature a slide on/slide off cover within and completely conceals the adjustment and fixing screws, gives it a neat and cleaner appearance. Both adjustment screws face the outside of the carcass for easy accessibility. This allows easy adjustment even if the cabinet is loaded. The cover is available in several finishes white plastic colours or metal, satin nickel plated to co-ordinate with the hinges. Wall Hanging Brackets are highly durable and can take load up to 200 kgs. This can be adjusted - up to 25mm horizontally and up to 28mm vertically.

Mid-Way Systems

The new kitchen midway systems from Hafele are the ideal storage solutions for any kitchen. If frequently used items like spices are stored in cabinets or shelves they may be troublesome to access. Rather than having to rummage around in the depths of a cabinet it makes a lot more sense to have these objects at arms reach.

Plasma Mini Lift

The Plasma Mini Lift is a small all-round electric TV Lift. It can be used in many kind of applications such as kitchens cupboards, bed ends, office furniture, campers, speedboats and more. These quiet, stable, remote controlled TV lifts are especially designed for flat screen TV's 460 mm travel, to accommodate small (up to 24") flat screen TV's. Each lift comes with a radio wave remote control - it can be used from anywhere within the room unlike infrared that would require pointing to a visible receiver with both remote and manual switch operation. It has an installation depth of just 70 mm and weight capacity is 50 kg.

Features:

- Easy way to mount flat Screen TV in the kitchen
- Fittings made of steel (Silver - RAV 9006)finish
- Weight capacity - 50 kg
- Set includes radio frequency remote control

1 Mini- Lift Flat Screen Lift

Lunch Pull-Out Drawer Table

Optimal utilization of space is always desirable but creating additional space from what's available has now become a necessity. The Lunch Extendable Table Fitting from Häfele's Space 2 Range is a space-saving system that consists of a pull-out table top fitting stored in a space normally used for a drawer. This table fitting pulls out instantly by simply opening the hinged front of the drawer space. Created to cater to the needs of functionality in small spaces, Lunch is ideal for small kitchens and kitchenettes needing a tabletop for breakfast or simply as an extension of the work top for preparing meals.

- Material: Aluminium
- Finish: Stainless Steel
- Mechanism: Pull-out Extendable Slides
- Max. Weight Carrying Capacity: 60 Kg
- Dimensions: 450-900 (W) mm
- Number of Planes:2
- Cycle Testing: 40,000 Cycles
- 5 Years Warranty w.r.t. function and use as per Häfele warranty document

Other Details:

- One Article for Variable Widths
- Smooth and Silent Functionality
- Locking Feature is Available
- Manufactured and Tested in Italy

Evolution Naked XL Pull Out Table with Bridge Leg

Fittings that could be brought out or tucked away in seconds whenever desired are the need of the hour with space constraints everywhere and a desire to have multifunctional open areas. Häfele brings to you Evolution Naked XL from the Space2 Range of Transformable Furniture Fittings, which is an entire dining table that folds away into your cabinet. It is a perfect solution for comfortable family dinners or can double up as a snack table during small get togethers. Evolution Naked XL comes with a bridge leg which is attached to the cabinet shutter providing additional support to the table. There is also a provision to detach the cabinet front from the leg to create an additional seating place around the table.

- Material: Aluminium
- Finish: Stainless Steel
- Mechanism: Pull-out Extendable Slides
- Max. Weight Carrying Capacity: 100 kg
- Dimensions: 900 (W) mm
- Number of Planes: 3

4. Tested to carry 210 kg/pair along with 40 mm aluminum profile with 2 extra hanging point when dimension of Cabinet is 900(width)x720 (height)x600(depth) with 2 drawer.
5. Maximum: 600 depth along with drawer & no height restriction.

WARNING

The strength and the ability to withstand the stresses of LIBRA H7 assume a good state of the load-bearing wall and the plaster possibly superimposed therein. It is the responsibility of the customer to verify that the wall is in condition and of sufficient quality to support the fixing and that the tools used are compatible with the surface on which LIBRA H7 is intended to be fixed. Italiana Ferramenta may not guarantee the strength of LIBRA H7 in the absence of adequacy of the load-bearing wall.

Ideal for kitchen cabinets.

ORDERING INFORMATION

Product Description	Article No.
1 Libra H7 Aluminium Bar H 40.2 mm	290.01.040
2 Libra H7 Aluminium Bar H 80.5 mm	290.01.081

Libra H7 to be fixed on the cabinet side with aluminium bar

ASSEMBLING WITH:

H 40.2 mm ALUMINIUM BAR

H 80.5 mm ALUMINIUM BAR

Recommended fixing self-tapping pan head screws Ø 4,2 x 45 mm.

INSTALLATION

Recommended fixing:

- insert nuts M6 x 13 mm
- flat head screws M6 x 12 mm

INSTALLATION ON THE WALL

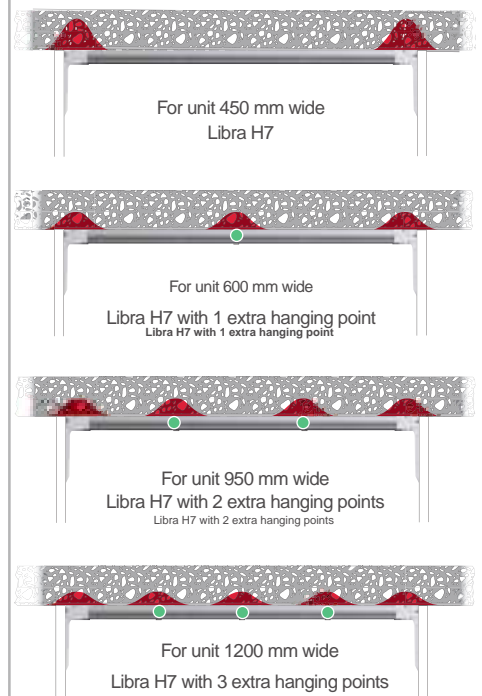

For specific information regarding the wall type and the related hardware fittings, please refer to the WARNING section at the end of the catalogue.

The hanging system is never interfering with the slides for drawers thanks to the slim side bracket wings.

■ = STRESS INTENSITY LEVEL ON THE WALL

By adding extra hanging points on the aluminium bar, the capacity loading is more evenly distributed, thus sensibly reducing the stress intensity level on the wall.

Integrato G

- Suitable to align heavy duty wardrobes, bookcases and modular furniture
- To be installed onto the bottom edge of the side carcase, wide range of zinc alloy supports available
- Adjustment to be carried out through Ø 8 mm hole in the furniture bottom by using a S6 mm allen wrench or both cross and blade screwdriver

Bi-Material

BI-MATERIAL is a unique solution to prevent cabinet doors from noisily slamming.

- A double moulded injection produces a single bumper made of two different materials: Rubber and engineering plastic.
 - a stiff pin which allows a fast installation through a \varnothing 5 mm pre-drilled hole.
 - a smooth outer surface

1 Bi-Material \varnothing 5 mm

The stiff part allows an easy and safe placing on the hole side, both manual and by an automatic machine.

When the door closes, the impact of the door is sensibly absorbed by outer tender bumper.

ORDERING INFORMATION

Product Description	Article No.
1 Bi-Material \varnothing 5 mm - Stiff and soft rubber	356.20.423

Soft

- SOFT is the new solution to prevent cabinet doors from noisily slamming.
- A double moulded injection produces a single bumper made of two different materials: Rubber and engineering plastic.
 - a stiff pin \varnothing 10 mm with small tender windows all around and empty inside.
 - a smooth outer surface.
- In accordance with the Regulation UNI 8607/05 Level 5.

The stiff part allows an easy and safe placing on the hole side, both manual and by an automatic machine.

When the door closes, the impact of the door is sensibly absorbed by outer tender bumper that recedes into the empty pin and the compressed air inside of it, expands out the tender windows, thus granting a soft and silent door closure.

ORDERING INFORMATION

Product Description	Article No.
1 Shelf Support with Kubic smooth pin Ø 5 mm for glass 4-8 mm thick - Nickel plated with white plastic locking clip.	284.04.641

Kristal

A shelf support to block glass shelves 4-10 mm thick for dispatching either flat pack or rigid furniture and for guaranteeing domestic safety

- Load carrying capacity: 80 kg/per set of 4 pieces.
- Consists of two zinc alloy elements:
 - main body featuring a soft layer of rubber and the locking screw
 - upper bracket with grooves
- Shelf is diagonally inserted into the cabinet, upper part pushed down into the main body
- Locking and unlocking is carried out with screwdriver, by turning 90° the locking screw
- Available with:
 - Ø 3, Ø 4 and Ø 5 mm pin for shelf repositioning without damaging the hole
- In accordance with the European Regulations UNI EN 14749/05

SHELF INSTALLATION

SHELF LOCKING

Kristal with locking metric screw

- 1 Smooth pin Ø 5 mm for glass 5-6 mm thick

- 2 Screw hole for glass 5-6 mm thick To achieve horizontal connection.

ORDERING INFORMATION

Product Description	Article No.
1 Shelf Support with smooth pin Ø 5 mm for glass 5-6 mm thick - Nickel plated	284.04.655
2 Screw hole for glass 5-6 mm thick - Chrome plated	284.04.650

Secret Maxi

Secret Maxi is the new hidden shelf support by Italiana Ferramenta, the only one that guarantees both the shelf locking and unlocking.

- Load carrying capacity: 60 kg/per set of 4 pieces.
- Completely hidden, even when used on bifacial furniture
- Can be used on shelves 25 mm minimum thick
- The anchoring system provides a structural junction between the shelf and the side panel, thus making Secret Maxi suitable even for constructions with flap and drop-down doors
- Consists of:
 - a plastic body to be inserted onto the shelf panel featuring an inner spring that moves the plastic hook out
 - a plastic socket to be inserted onto the side panel
- When flap and drop-down doors are required, the shelf can be fully locked through a Ø 4 mm hole, by turning the minifix 90° with a S2,5 mm allen wrench
- The hole for the shelf locking can be drilled on the upper or lower side of the shelf, (or even a passing through hole), according to the customer's needs
- It allows the customer to fix and remove the shelves in an easy and intuitive way. The furniture processing doesn't require any milling; simply drillings

Kalabrone Mini

Brand new shelf support for small free-standing glass shelves.

- Fresh and contemporary design
 - Suitable for glass shelves from 5 up to 10 mm thick clamped between a soft rubber on both the upper and lower side
 - Easy alignment of the brackets against the wall
 - White plastic cover to conceal the housing of the clamping screw
 - High capacity loading: 6 kilos per piece (approx 12 kilos per pair), for 150 mm shelf depth
 - Zinc alloy, soft rubber and plastic.
- Wide range of finishes: SS, Chrome Bright & Silver

INSTALLATION

KALABRONE MINI 5 - 10 mm THICK

ADJUSTMENT

Bracket alignment

Kalabrone Mini is supplied individually bagged with fixing clamping screw, white plastic cover cap and instruction sheet.

Shelf is clamped between a layer of soft rubber on both the lower and upper side (coloured parts).

COMBINATION SHELF LOAD AND SHELF DEPTH
(The figures refer to one shelf support)

+ shelf weight = 6 Kg MAX for each shelf support

ORDERING INFORMATION

Product Description	Article No.
1 Kalabrone Mini - Set 1 in stainless steel	284.09.030
2 Kalabrone Mini - Set 1 in chrome bright	284.09.230
3 Kalabrone Mini - Set 1 in silver	284.09.930

Kalabrone System

- Decorative and structural shelf support for free-standing shelves
- Fresh and contemporary design, ideal for both glass and wood shelves
- Available in two versions:
 - Kalabrone for minimum 8 up to 30 mm thick shelves
 - Kalabrone Maxi for minimum 25 up to 50 mm thick shelves
- Recommended for honeycomb/lightweight shelves
- Shelf is clamped between a layer of ridged plastic on the lower side and soft rubber on the upper side
- Useful method for perfect and permanent alignment of the brackets against the wall
- Features: The unique and patented front to back angle adjustment to quickly level the shelf with a cross screw driver when the shelf is already mounted
- White plastic cover to conceal the housing of the clamping screw
- High capacity loading: 25 kilos per piece (approx. 50 kilos per pair), with 320 mm shelf depth
- Zinc alloy, soft rubber and plastic. Wide range of finishes

INSTALLATION

INCLINATION ADJUSTMENT

1 Kalabrone System

Combination Shelf Load And Shelf Depth (The Figures Refer To One Shelf Support)

+ shelf weight = 25 Kg MAX for each shelf support

ORDERING INFORMATION

Product Description	Article No.
1 Kalabrone System - Set 1 in stainless steel	284.09.280
2 Kalabrone System - Set 1 in chrome bright	284.09.080
3 Kalabrone System - Set 1 in silver	284.09.980

Kalabrone is supplied in carton box including 2 pieces, white plastic cover caps, fixing accessories and instruction sheet. Fixing screws to wall not included.

Triade

- Concealed and structural shelf support system for free standing shelves, conceived to simplify the shelf installation
- It is available in four versions:
 - Triade Mini for minimum 25 mm thickness
 - Triade for 30 to 40 mm thickness
 - Triade Maxi for minimum 40 mm thickness
 - Triade XXL for honeycomb/lightweight panels minimum 40 mm thickness
- Features three independent adjustments:
 - vertical: for perfect alignment of the brackets against the wall
 - lateral: to compensate drilling leeway and to easily mount the shelf
 - inclination: to be carried out with an open-ended wrench key when the shelf is partially inserted. Shelf angle is adjusted front to back extremely quickly
- High Capacity Loading, see related charts
- Complement Bracket for each Triade version to enhance the capacity loading and the shelf stability by evenly distributing the shelf load on the wall
- Material: Zinc alloy and steel

1 Triade

2 Bracket for Triade

3 Pan Head Screw

PLINTH FITTINGS & ACCESSORIES

Skirting Panels: Plinth Fittings Range

Häfele's New Skirting Panels from the Plinth Fittings and Accessories Range come in six different finishes unlocking multiple design possibilities and colour patterns in your kitchen. They are made of PVC which makes them light weighted and highly durable. You can cut the Skirting Panels according to your requirement and mould it to any kitchen shape with the help of our different Skirting Connectors from the range.

The Skirting Panels under Häfele's Plinth Fittings Range come in six different finishes –Dark Bronze, Graphite, Rose Gold, Gold, Silver and Aluminium Mirror. They are available in two heights of 100 mm and 150 mm.

The different finishes of the Skirting Panels are displayed below

1 Graphite

2 Rose Gold

3 Gold

4 Silver

5 Aluminium Mirror

6 Dark Bronze

ORDERING INFORMATION

Finish	Height (mm)	Length (mm)	Thickness (mm)	Article No.
1 Graphite	100	3000	12	713.55.523
2 Rose Gold	100			713.55.423
3 Gold	100			713.55.623
4 Silver	100			713.55.923
5 Aluminium Mirror	100			713.55.823
6 Dark Bronze	100			713.55.323
7 Dark Bronze	150			713.57.323

Skirting Connectors: Plinth Fittings Range

Skirting Connectors help join two Skirting Panels and come in the same finishes as that of the Skirting Panels. The three different connectors falling in this range are the Adjustable Angle Connector, 90°Two Side Connector and 90°One Side Connector.

Note: The finish of the Skirting Panel and Skirting Connector shown in this image is for representation purposes only

1. Adjustable Angle Connector

The Adjustable Angle Connector is specifically designed for places where Skirting Panels need to be connected in an angle other than 90°. It thus blends in seamlessly with any kitchen shape enhancing its versatility. It is also used to linearly join two Skirting Panels when the length of one Skirting Panel isn't adequate.

ORDERING INFORMATION

Finish	Height (mm)	Article No.
1 Graphite	100	713.55.530
2 Rose Gold	100	713.55.430
3 Gold	100	713.55.630
4 Silver	100	713.55.230
5 Aluminium Mirror	100	713.55.830
6 Dark Bronze	100	713.55.330
7 Dark Bronze	150	713.57.330

2. 90°Two Side Connector

The 90°Two Side Connector (finish on both sides) joins two Skirting Panels at a standard right angle.

ORDERING INFORMATION

Finish	Height (mm)	Article No.
1 Graphite	100	713.55.560
2 Rose Gold	100	713.55.460
3 Gold	100	713.55.660

6 Dark Bronze	100	713.55.360
7 Dark Bronze	150	713.57.360

3. 90°One Side Connector

The 90°One Side Connector (finish on the outer side) joins two Skirting Panels at a standard right angle and is only available in the Aluminium Mirror finish.

ORDERING INFORMATION

Finish	Height (mm)	Article No.
1 Aluminium Mirror	100	713.55.861

Plinth Legs and Connectors

Plinth Legs: Plinth Fittings Range

Plinth Leg for Triangular Base

Plinth Legs from Häfele's Range of Plinth Fittings are the blocks that hold the kitchen cabinetry in place and provide support to your Skirting. All Plinth Legs in this range have a weight carrying capacity of 200 kg/leg and are made out of thermo plastic which has a high shock resistance. They also demonstrate excellent dimensional stability and durability overtime, and ensure high mechanical and chemical resistance.

ORDERING INFORMATION

Product Description	Height (mm)	Material	Finish	Article No.
1 Plinth Leg for Triangular Base	100	Thermoplastic	Black	637.87.322
2 Plinth Leg for Triangular Base	150			637.87.324
3 Triangular Base				637.87.340

Plinth Leg with Triangular Base offers extra support to your carcass and cabinetry owing to its structure and installation.

Plinth Leg with Round Base

ORDERING INFORMATION

Product Description	Height (mm)	Material	Finish	Weight Bearing Capacity	Article No.
1 Plinth Leg with Round Base	100	Thermoplastic	Black	200 kg / leg	637.29.751
2 Plinth Leg with Round Base	150				637.29.730

Plinth Connectors: Plinth Fittings Range

The Blink Connector provides you access to the space below the kitchen cabinetry without much effort. It connects the Skirting Panel to the Plinth Leg and holds it in place. The plastic insert of the Blink Connector houses a magnetic disc; this plastic insert gets locked in the groove of the Skirting Panel and the magnetic disc attaches itself to the metal plinth clip which is fastened around the plinth leg. This solution also makes detaching your Skirting Panel easy.

Blink Connector Set

Magnetic disc housing

Metal plinth clip

ORDERING INFORMATION

Product Description	Material	Finish	Article No.
1 Blink Connector Set	Metal (Plinth Clip), Magnet (Magnetic Disc), Plastic (Housing)	Silver, Red	637.27.384

Standard Clip

The Standard Clip attaches the Skirting Panel to the Plinth Leg with the help of its clasp like structure thus providing a firm hold for the connection.

ORDERING INFORMATION

Product Description	Material	Finish	Article No.
1 Standard Clip	Metal	Black	637.87.330

Ventilation Grill

The Ventilation Grills within Häfele's Plinth Fittings Range enable air circulation inside the built-in cabinets of your kitchen which lets your built-in appliances work efficiently at their optimum level for a longer period of time. The Ventilation Grill comes in finishes similar to your Skirting Panels, blending in excellently with your kitchen base.

The different finishes of the Ventilation Grill are displayed below.

ORDERING INFORMATION

Finish	Width (mm)	Height (mm)	Thickness (mm)	Article No.

4 Silver				571.83.900
5 Dark Bronze				571.83.100

LIGHTING SOLUTIONS

EASY AND QUICK INSTALLATION.

Loox. The intelligent plug and play system with easily understandable colour coding.

12 V

PLUG AND PLAY.

Loox has three power systems for the different LED lights with matching drivers as central switching devices. 12 V and 24 V (parallel connection) for universal applications ranging from ambient light to functional light with different light outputs and 350 mA (series connection) specially for spot lighting with low wattage.

24 V

Clear colour coding of the plugs with individual design makes the system easy to assemble and install. It can easily be installed without the need for an electrician.

Supplied with

- 1 light with 2 m lead

LED Driver 833.74.960

Constant Voltage LED Driver, 12 V DC,
Input -100-240 V, Max 1.25 A, 0 - 20 Watts,
6 slots for 12 V lights, 1 slot for switch (Integrated
switching function), 1 slot for mains plug.

Can drive up to 6 lights.
833.74.120 and 833.74.130

Note: LED Driver (833.74.960), mains plug (833.16.014/ 833.16.015) & shelf support to be ordered separately

HÄFELE CONNECT BLE BOX

The Häfele Connect BLE box (Bluetooth low energy technology – ideal protocol for wireless light control) makes it possible to intuitively control furniture lighting and electrically operated fittings using a convenient app.

A 12 V or 24 V driver supplies the BLE box via two leads. A single BLE Box or an entire network of BLE boxes is intuitively controlled via a Smartphone or tablet.

The Häfele Connect App makes it possible to control individual lights and electrically operated fittings.

The app controls the switching status (on/off), the brightness (0–100%) and also the colour temperature (with multi white lights) and the light colour (with RGB lights). All parameters can be saved as scenarios and retrieved at any time.

Even time-controlled alteration of the brightness, the colour temperature, the light colour and the position of fittings is possible.

Real-life images of the actual room and the actual lights provide an intuitive operating experience. The Häfele Connect App is free for Apple IOS® and Android™.

BLE BOX

- > The distance between the Smartphone or tablet to the nearest BLE box is approx. 10 m.
- Multiple BLE boxes create a network, and can also be placed approx. 10 m apart.
- > One BLE box occupies 2 outputs of the driver.

Version: for on/off switching and dimming of lights (0–100%). Please order the BLE adapter separately for operating electrically operated fittings, RGB lights or multi white lights.

New Pop-Up Sockets

Less is indeed more! Functionality at a pull. Häfele integrates concepts of space efficiency, functionality, ease, entertainment and advanced technology seamlessly into its New Pop-up Socket Systems.

- Effective utilisation of space
- Reduces dependency on the traditional wall socket systems:
- Packs-in a unique dose of entertainment through the integrated Bluetooth audio system.
- Is splash-proof (IP54 in a close position) which means that it is resistant to water splashing from all directions

KITCHEN SINKS & FAUCETS

Hafele's Range of Blanco Sinks comes with a unique colour fidelity and a host of contemporary colours, with identical surface conditions, specially designed to match the BLANCO taps

This section of the catalogue provides you with a detailed description of the features, product specifications and technical details of the models available in the range of BLANCO Kitchen Sinks and Mixer Taps

CombiColours

Hafele's range of BLANCO sinks are made of a patented material called SILGRANIT™ PuraDur™ which offers an ease of care and level of resistance that has never been offered before for coloured composite sinks

SILGRANIT™ PuraDur™ is a material that consists of 80% natural granite. The granite is combined with an acrylic matrix, ceramic and colour pigments to give it, its unbeatable characteristics. It combines the textural beauty of nature with unmatched strength and durability

Material properties

The stony-silky surface and very finely pored, closed surface create a soft stonelike character that is wonderful to touch.

Unique colour fidelity

There is a choice of six delightful colours with the identical surface characteristics of the matching BLANCO taps.

Unbeatably easy to look after and long-lasting

Thanks to its excellent material properties SILGRANIT™ PuraDur™ offers an ease of care and level of resistance that has never been offered before for coloured composite sinks.

- unsurpassed scratch resistance
- unsurpassed resistance to breakage
- unsurpassed heat-resistance to 280°C

Hygiene + Plus

SILGRANIT™ PuraDur™ sinks include a patented hygiene protection formula: Hygiene+Plus.

Hygiene+Plus is a shield against dirt and bacteria, and makes cleaning easier. Tests confirm that this unique built-in hygiene protection reduces the growth of hygienically relevant bacteria by up to 98%

Hafele's range of BLANCO products have undergone the following quality and safety test:

SILGRANIT™ PuraDur™ II
Unbeatable easy to look after and long-lasting. Thanks to the excellent material properties, SILGRANIT™ PuraDur™ II offers an ease of care and **level of resistance that has never been offered before** for coloured composite sinks.

Unsurpassed ease of cleaning

SILGRANIT™ PuraDur™ II is identified by its:

- outstanding ease of care
- superior durability
- patented hygiene protection formula

SILGRANIT™ PuraDur™ II is identified by its:

- 100% suitable for food use
- 100% acid resistant
- 100% non fading

**BLANCO turns a sink into a sink centre.
Tips for making the right choice.**

Optimum space utilisation for more comfort.
BLANCO offers solutions for any size of sink cabinet. A cabinet width of 60 cm is ideal for sinks with a main and additional bowl

Ergonomics and functionality.
The main and additional bowls and accessories are designed to match each other perfectly. Comfort solutions – such as the Axial concept – help to achieve efficient working.

Cleaning made easy.
The surfaces of sinks and mixer taps are wonderfully easy to clean. Special materials help to repel dirt and water.

Mixer taps by BLANCO
BLANCO offers a wide selection of designs of high functionality. Certified in accordance with the strict quality criteria of independent test institutes, they meet the highest requirements for safety and hygiene.

Material and colour add highlights.
The right combination of sink and mixer tap creates an ambience that matches any home living style.

BLANCO EasyCare – Care is more than a superficial matter.

SILGRANIT™ PuraDur™ II
The material contains water and dirt repellent agents.
Permanently easy to care for.

BLANCO CARE
Care products from BLANCO are specially designed to suit the respective materials. All conceivable problems can be dealt with. From scratches through limescale deposits and fingerprints to rust, metal abrasion and discolouration.

BLANCO WARRANTY
Offers 10 years* warranty on manufacturing defect or faulty workmanship on Blanco products
*T & C apply

60% of the work is at the sink centre	
25% at the cooker	
15% other	

An independent survey proves it: the heart of every kitchen is the sink. Over 60% of the work is done here, despite dishwashers! This creates a great deal of dirt, of course. And this must be cleaned away. But this costs time.

This is a great deal to expect but, at BLANCO, it is precisely this which is the driving force behind our developments. We want to make kitchen chores as simple and as easy as possible. BLANCO EasyCare is the name behind this concept, a superior product concept:

Sinks, which are simply easier to clean! Whether they are stainless steel, SILGRANIT™ or ceramic ... BLANCO sinks are the right choice for:

- the degree of work facilitation
- the long term value of the kitchen
- the pleasure from and in the kitchen

Aesthetics and function
in all their facets.

Mixer taps from BLANCO.

Equip your sink centre with a tap which matches the design of your kitchen. BLANCO mixer taps incorporate a high quality mechanism, are equipped with a wide variety of additional functions and make all your chores much easier – from washing salad to cleaning pans.

Make the most of the high degree of creative freedom they offer and combine the materials and colours of the SILGRANIT™-look or ceramic-look taps with the matching sinks.

Put your trust in BLANCO mixer taps.

Quality for the sake of your health.

Avoid risks to your health.

Untested taps can significantly exceed the maximum permissible value for substances which endanger health. BLANCO taps are extensively tested and certified. They thus provide maximum safety in terms of health and hygiene.

Clean water is our contribution to your health.

BLANCO proves its high sense of responsibility towards people and the environment in many ways, not only by exclusively using certified quality materials in all water-conducting parts of BLANCO taps, but also by continuously monitoring them by means of voluntary tests.

The advantages for you:

- a good feeling every day about the hygiene and health protection for the whole family
- confirmed safety when buying taps
- durable products with high quality

BLANCO taps: seal of approval for safety and hygiene.

Blanco has the technology and hygiene of its taps voluntarily tested according to the stipulations of the German drinking water regulation and certified by the DVGW Cert GmbH (Certification body of the German Scientific and Technical Association for Gas and Water e.V.).

With this certification BLANCO taps provide one of the highest qualities currently available on the German market.

The voluntary certification by the DVGW is BLANCO's documentary proof that the requirements for the protection of drinking water are being observed.

Before the certification takes place, the technology and hygiene of a range of taps are subjected to a large number of individual tests by various, independent institutes.

The following criteria are an essential part of these tests:

- safeness of the materials used (all materials coming into contact with water are tested for hygienic properties and constituents which can present a health hazard.)
- durability in hot-cold permanent use
- flow rate
- intensity of water noise

The patented Neoperl cascade reduces limescale and provides an even flow of water.

The integrated check valve keeps used water away when the spray is in use.

Elastic silicone nubs keep the spray free of limescale, and are easily cleaned just by rubbing with a finger.

Because they are so long, the flexible connection hoses are ideal even for difficult conditions.

Long-life ceramic disc cartridges provide for a precise adjustment of water amount and temperature.

BLANCO JURENA-S

Exalted elegance

- Distinctive design
- Innovative concept with concealed pull-out handspray
- High outlet for easy filling of pots and vases
- High positioned, ergonomic control lever

1 Finish: Chrome

- Spout can be swivelled by 190°
- Ø 35 mm tap hole required
- With ceramic disk cartridge
- Fabric-sheathed spray hose
- Concealed spray hose with rearward guide pin
- Flexible connector pipes, 450 mm long and 3/8" nut for particularly easy installation

- Patented jet regulator for markedly reduced scaling
- Stabilisation plate to increase the stability of the tap when fitted in stainless steel sinks
- With non-return valve and thus guaranteed against reflux in accordance with EN 1717
- Applied for LGA certificate
- Applied for DVGW certificate

think green

Smart Lime Cleaning:

The Italian Kitchen Taps by Hafele have an Anti-Lime pure water outlet design for their aerator which reduces the possibility of lime formation & increases the maximum lifespan of your faucet aerator

Water Sense Technology:

These taps are integrated with a Water sense Technology which saves 20% more water than similar products in the market.

Vandal Resistant Aerator:

The Italian Kitchen Taps by Hafele have vandal resistant aerators which can not be removed without using special key, which is supplied with the products

How to save water?

Consumptions can be reduced and it's easier than what you think

> Avoid wasting.

For example, use full load washing machine and dishwasher, water the plants at evening when temperature is lower, do not leave taps open unless necessary (letting the water run as you brush your teeth)...

> Use low water consumption systems.

Flow reducers, thermostatic taps, aerated taps and low consumption appliances together with a water use attentive and rational, guarantee remarkable drinking water saving up to 20-30%.

HAFELE ARGENTO

The ever increasing popularity of handmade sinks is directly connected to the possibility of welding a perfectly customized sink as per the individual requirement and design preference of the customer. Hafele's range of handmade sinks from the ARGENTO series are made of high grade Stainless Steel (SS 304) and coated with an elegant satin finish – providing a durable and aesthetically stylish solution for your cleaning needs in the kitchen. Our range of ARGENTO sinks are tested to resist any external damages like chipping, cracking or peeling and the satin coating provides additional protection from scratching and rusting. The hygienic and aseptic properties of stainless steel make the maintenance and cleaning of ARGENTO sinks virtually effortless!

Taking into account the constant exposure of a sink to dampness and moisture, our ARGENTO sinks are coated with Asphalt at the base of the bowl protecting them from condensation or corrosion. A special sound suppression pad of 0.5 to 0.8mm thickness is integrated into the sink bowl which enables the ARGENTO Sinks to absorb excessive noise when vessels are being washed. All our ARGENTO sinks carry a warranty for 2 years against faulty workmanship and material. The ARGENTO sinks' drain pipe is specially designed to enable smooth discharge of soiled water into the drain lowering the chances of clogging. The ARGENTO sinks are available in standard bowl depths of 8, 9 and 10 inches making it easier to wash even the heavy and large vessels in your kitchen.

Advantages Stainless Steel Kitchen Sinks

Finish: All ARGENTO sinks come with a uniform European satin finish that aesthetically enhances the elegant design of the sink bowl.

Steel Thickness: All ARGENTO sinks are made of Stainless Steel grade 304 with a thickness of 1.2 mm. Grade 304 contains 18% Chrome and 8% Nickel which increases the resistance of the material to corrosion and rusting; providing extraordinary durability and unbeatable performance.

Coating: To avoid sound, the undercoat is extremely important for any stainless steel sink. All ARGENTO sinks are coated to about 0.5 – 0.8 mm thickness with Asphalt - a material which absorbs sound and protects the base of the sink from condensation and corrosion.

Sound Deadening Pad: In addition to the Asphalt coating, a special sound suppression pad of 2mm thickness is integrated into the ARGENTO sinks to absorb excessive noise of the Utensils during use.

Drain Pipe: The ARGENTO series come with a drain pipe which is specially designed to prevent clogging and ensure easy cleaning.

Easy to Clean: The inherent aseptic property of stainless steel makes the maintenance of ARGENTO sinks virtually effortless. They are hygienic and easy to clean.

10 Year Warranty: All ARGENTO sinks are guaranteed for 10 years against faulty workmanship and material. *T&C apply.

Extra Deep Bowl: ARGENTO sinks come with extra deep bowls ranging from 8 to 10 inches making it sufficiently easy to accommodate large and heavy-duty vessels for cleaning.

HAFELE SPLASH

Hafele's SPLASH punching bowl sinks are carefully engineered through a unique drawing process where pressure is individually controlled in combination with a lubrication process which draws out the sink bowls out of a Grade 304 Stainless Steel sheet, without the steel itself breaking. The stainless steel sinks are then coated with an elegant satin finish to add a layer of protection against scratching or rusting. The well rounded shape of our SPLASH sinks makes way for easy cleaning, eliminating the chances of any unwanted residues in the remote corners of the sink bowl.

Our range of SPLASH sinks are tested to resist any external damages like chipping, cracking or peeling and the hygienic and aseptic properties of stainless steel make the maintenance of these sinks virtually effortless! The grade 304 composition of stainless steel with 18% chromium & 8% Nickel further enhances the durability of our sinks, making them highly tolerant to humid conditions. SPLASH sinks come with a special stone guard undercoating and rubber padding to absorb excessive noise levels of utensils during use. They come with a Drain Pipe of size 3.5 inches, specially designed to prevent clogging and ensure easy cleaning. SPLASH sinks come with a sink bowl depth ranging from 8 to 10 inches, making the washing of heavy-duty vessels an effortless task. All sinks from the SPLASH series come with a 2 year warranty against faulty workmanship and material.

Advantages

Stainless Steel: Hafele SPLASH sinks use 0.8mm premium grade SUS304 stainless steel consisting of 18% chrome and 8% nickel, making the sinks highly durable and resistant to corrosion

Finish: All SPLASH sinks come with an elegant, scratch-resistant premium satin finish

Padding: The sinks are padded and Stone-Guard undercoated which reduces noise levels while the sink is in use

Bowl Depth: 8 & 10 inches bowl depths that can easily accommodate heavy vessels during any cleaning cycle

Unique Overflow System: The unique overflow system prevents water from spilling over and the reversible design can easily render a left hand or right hand installation.

Drain System: The 3.5 inch drain outlet is compatible with most garbage disposals available in the market; it comes with a stainless steel strainer and a plastic drainage pipe

Packaging: SPLASH sinks come in a handy packaging equipped with mounting & installation brackets as well as cut-out templates

Warranty: Hafele offers a 2-years warranty for the SPLASH range against faulty workmanship & manufacturing defect from the date of invoice

Supernatural™

The One of a Kind Collection

Just like an original work of art, every Supernatural slab is one of a kind a quartz surface that will take your interior décor to a whole new level. Mirroring nature's endless diversity and beauty, each slab is finished to perfection.

Inspired by some of the world's most beautiful natural marble, Caesarstone's supernatural designs represent the very best of what nature has to offer. Using cutting-edge technology, these earthy tones and delicate veins are infused with intricacies and textures never before seen on quartz surfaces.

The new Supernatural designs adorn any modern interior, while maintaining all the advantages and timeless qualities that make Caesarstone special.

DEKTON

Casa Cor | Feroe | © Michel Alban - Jónatas Padilha

WHAT IS DEKTON ?

DEKTON is a new and unique surface created through the innovative combination of 28 natural minerals found in nature and its exclusive ULTRA COMPACTING TECHNOLOGY.

This technology replicates and enhances the metamorphic changes that natural stone undergoes over a millennia through exposure to high pressure and high temperature.

This evolution represents a technological and industrial leap capable of generating a revolutionary material and leading product with virtually ZERO porosity and non-existence of any micro flaws that cause weakness.

Dimensions

The DEKTON® slab has a nominal dimension of 3200 x 1440 mm. Depending on the type of colour and formula used to manufacture DEKTON®, the useful surface area may be larger than the above dimensions. In the event of a defect appearing, the surface area of the slab

decreases in sufficient measure to allow the defect to be eliminated from what is considered the useful surface area. In other words, the area affected by the defect is subtracted, as shown in the example. The DEKTON® slabs are marketed in three different thicknesses: 8, 12 and 20 mm.

The maximum deviation from the nominal value is $\pm 2\%$. As an example, for a 20 mm thick slab, the maximum variation that the slab may have is ± 0.4 mm.

Textures / Finishes

The DEKTON® colours may have different textures such as Smooth matte, Textured matte (wood, slate / limestone) and Polished. Dekton Grip, our finish for wet zones, is also available.

The texture is determined by the name of the colour. Not all the textures are available in all the colours.

COLLECTION	TEXTURE	COLOURS
SOLID	Smooth matte	DOMOOS, ZENITH, GALEMA, VENTUS
	Textured matte	SIRIUS
NATURAL	Smooth matte	AURA 15, ENTZO, KAIROS, DANAE, KELYA, VEGHA, SIROCCO, OPERA, KIRA, GREY KIRA, BEDROCK, LAURENT, PORTUM
	Textured matte	GADA, BROMO
	Polished	GLACIER
TECH	Smooth matte	STRATO, KADUM, KERANIUM, KEON
WILD	Textured matte	MAKAI
INDUSTRIAL	Smooth matte	TRILIUM, RADIUM, NILLIUM, ORIX, LAOS, MILAR, SOKE
CHROMICA	Smooth matte	BALTIC, FEROE

DEKTON FORMATS

High UV Resistance

Dekton is highly resistant to ultra violet (UV) light and will not fade or degrade over time making it perfect for both indoor and outdoor applications.

Highly Scratch – resistant

Dekton is the most scratch resistant surface on the market and while the slip of a knife won't damage Dekton, cutting boards are still recommended to protect your household utensils.

Resistant to stains

While other surfaces are stain resistant Dekton is completely stain proof, Even the most stubborn stains like wine, coffee, markers and rust can easily be removed from the surface. Since Dekton has extremely low porosity and contains no resins, it is chemically resistant to drips or splashes of common household chemicals like bleach and drain cleaners. Even oven degreasers won't harm Dekton.

High resistance to fire and heat

Dekton withstands high temperatures without burning, scorching or cracking . Hot pots and appliances like crock pots can be placed directly on the surface with no worry of damage

Resistant to abrasion

Dekton is even more resistant to abrasion than granite making it the ideal surface for commercial applications and high traffic areas such as flooring. While other surfaces show wear overtime, Dekton finish will last for the life of the product and will never need to be re-surfaced or re- finished.

Resistant to ice & thawing

Dekton's low coefficient of thermal expansion makes it thermal shock proof from both extreme heat and extreme cold. It's natural resistance to ice and thawing makes it perfect to use in even the coldest environments.

High mechanical resistance

With over 5 times the flexural strength of granite, Dekton can be installed in thinner material over greater spans allowing for up to a 12 inch unsupported overhang on worktops, islands and bar tops Dekton's high compressive strength makes it an ideal material for walkways, pavers or driveways.

Non – porous

Dekton is non porous and never needs to be sealed. It naturally prevents liquids and gases from penetrating the surface making it a low maintenance surface that is easier to clean

Colour stability

The manufacturing process used to make Dekton allows us to control the pigmentation and decoration of the material giving better colour consistency from slab to slab and resulting in a long lasting product that will not fade overtime. The surface you install today will maintain the same new appearance for the life of the product.

Dimensional stability

Dekton is very consistent in both dimension and thickness throughout the slab which minimizes the need for field corrections and allows for easy installation

Waterproof

Dekton is highly water resistant

Wall Cladding

Gone are the days when your kitchen and dado walls hide behind plastered paints, inconsistent tiles or dull wall papers. Dekton's unique surface properties like low water absorption and fire resistance make it an ideal choice for wall cladding applications in kitchens as well as the other areas of your interior spaces. Moreover the dimensional stability provides an overall consistency in design making for a seamless look without borders or differences. The end result is a surface that adorns your walls with spectacular aesthetics as well as robust and ever-lasting durability

Flooring and Indoor Countertops

The aesthetic appeal of any kitchen is greatly emphasized by the choice of countertops and flooring materials used. Today, the need to move away from clinical and functional designs is changing the spectrum of material choices available in the market. Dekton, with its unique material properties, forms an ideal choice for every surface in your kitchen – be it countertops, flooring or even cabinet fronts. It’s scratch and stain resistance properties along with low water absorption levels make it a robust choice for countertops and floorings. The spectrum of designs and patterns available through Dekton, bring with it the flexibility to design your kitchen your way – you may choose to follow a seamless synergy between the flooring, cabinets and countertops or else bring in a healthy contrast of tones.

Outdoor Countertops

When designing an outdoor surface we need to take gravity into account: everything floating in the air will end up falling onto it. And it can be unused for weeks and months. A strong material with high resistance to UV-rays, thermal fluctuations, Scratches and stains would be your best bet in such applications. Sounds hypothetical? Not really. Dekton surfaces come with the ideal properties to sustain the harsh conditions of outdoor applications and thus become your ideal choice for countertops that need to be installed outside your home. The myriad choice of finishes and designs available in this range can help you create a unique application, just the kinds you had always imagined.
